

Teachings of Babaji
1979 - 1984

26 JULY 1979 (Herakhan)

Some important observations made by Sri Babaji on the future world events. The change of the present which is full of turmoil, will be brought about by bloody revolution. Peace will return only after the revolution reaches its zenith. In the aftermath of the revolution-which will be total, no country will be spared big or small-some countries will be totally erased, leaving no sign of their existence.

In some 3% to 5% and up to maximum of 25% of the population will be spared and will survive.

The destruction will be brought about by earthquakes, floods, accidents, collisions and wars.

The destructive elements which were kept in check by Sri Babaji have been released to do their worst.

Those who pray to their chosen divinity will not be affected.

28 JULY 1979 (Herakhan)

Giving reference to his earlier prediction Shri Babaji foretold that the revolution (like a scythe) will be total and will be from one end of the world to another. Revolution spoken about on 26-7-1979, will increase in tempo, and will reach its culmination point. It will not be confined to any particular country, but the whole world will be engulfed, big and small countries alike.

People today are full of misery and unhappiness. Misery and unhappiness is not confined to the poor, but rich people are affected too; All are suffering from difficulties, misery, and unhappiness. The leaders of all countries are busy safeguarding their positions and have totally ignored their people's needs and interests. These leaders are misguiding the public. There is complete insecurity. There is no safety of person or property. New leaders are being trained and prepared to take over from the (corrupt) leaders who will restore just and proper order and bring peace.

At present, demonic influences have engulfed men. Man will fight and devour men and they will destroy each other. First, destruction will take place, then a lull and then peace will prevail. Some of the countries will be completely destroyed. Prayer will be the only safeguard and saviors against destruction. Forget past and future, abolish all other thoughts, but pray with total concentration of mind and soul and have full faith in God. Chant OM NAMA SHIVAYA and you can defy death. Have no thought about your life and death. No evil influence will ever come near you if you pray with purity of heart and mind and with all faith and concentration.

14 MARCH 1980

Initiation in Karma Yoga by Sri Babaji

Tomorrow we must go for work very early; as early as possible. Before nine, you must fill the water tank here for the kitchen; and before nine we must meet at the Cave site for work. We must show some of our wonders -- wonderful work. Because you have come from such a far distance, you must show some of your skills. This work is not only for this purpose. This work will go with you wherever you go, even after you leave the body and go to the other world, this work will go with you. You will be benefitted by it. Whatever kind of garden you will make here, and whatever seeds you will sow here, you will get there, also.

This is spiritual work, not material. This is neither my work nor yours; this is the work of the whole universe -- nay, the whole cosmos.

Do you understand?

It is best that you spend as much time as you can for this; this will be good for you in the future. The more time and the more energy you use here will prove to be more beneficial to you. Your health will also improve by this; your digestion will be good and you will sleep well, also. Your mind will be purified.

Many yogis are doing so many kinds of yoga. Hatha yoga to purify the mind; that you will get by doing this work. You need not do any other kind of yoga. This is the highest yoga.

Are all of you understanding Baba's words ? How do you like all these words? There is no difficulty. So many other people will come. From all parts of the world, people are coming here. Don't worry that you are working alone. Don't worry about anything.

See the ant. How small is the ant, yet how big a load she carries. You should not be dejected or disheartened. If we want; we can blow the whole of this mountain- if we all want; if we have Will. Don't lose your hearts in this small Work. When you lose your heart, when you lose courage-this is death. Don't lose courage. You can move the mountain.

Yoga is to be courageous. To get dejected or to lose courage is not yoga. You must understand what Bhole Baba says.

We have to be prepared for anything, at any time. We must train ourselves for every kind of work.

Do you understand?

When the new kingdom will come, then you will get many facilities. All the taxes will be abolished, and travelling charges will be free. All of you will get passes to come here, there will be no charges. And roaming about will be stopped totally; you cannot go here and there; you must strictly come here only.

3 APRIL 1980

Babaji spoke generally of unity. We are all equal, despite the country we come from, and national differences should be ignored. We are all a unity. We must shed all jealousy and envy because they are harmful. We are all one with each other and with God.

In order not to provoke Me, you must be quiet at the time of catastrophe. You must concentrate on Om Namah Shivaya. With this mantra you can win everything, because it is stronger than all the bombs.

Babaji mentioned the freedom spoken of and promised by politicians. Then He said, in effect: "Theirs is no freedom at all. If you work and are worthy. I shall show you freedom greater than you have ever dreamed about."

4 APRIL 1980

Note: At this time, people in the ashram were putting most of their work hours into digging out the side of a hill which is one of the "shoulders" of Mount Kailash. They were cutting into the hillside and levelling the land to create a large, level space to build temples, make a garden, and build cow barns and living quarters.

Thank you for the work, love, and sense of duty you have shown in moving the mountain. This is a blessing for you and for your children. When your children come-and I hope that they will - the things that you have done will be of benefit to them.

12 APRIL 1980

If you are at peace, I am in peace. If you are troubled, I am troubled. If you have problems, I have problems.

There will always be hills and mountains to overcome on the way to God. Do not be disturbed by the mountain falling down. It is the duty of the mountain to fall down and it is the duty of the soldiers to move the mountain.

You should seek harmony in everything that you do. I am harmony. Thank you for your love.

18 APRIL 1980

Shri Babaji laid down some new rules regarding the Ashram:

- All people are prohibited from distributing food, clothes or money to the villagers. This creates an atmosphere of expectation and when it is not met, then the people return to steal things from the Ashram. Many things have been stolen. Anybody who wishes to give anything away, should turn them over to Gora Devi so that she can give them to Babaji who will see that the proper thing is done.

Everybody should make an effort to learn the customs and practices of the Ashram. Babaji had said many times that all who come to the Ashram must take responsibility for it's care.

Projects:

Shri Babaji said that one day He will build a summer water palace on the site of the Sati Kund tree.

Shri Babaji said He was planning to build a 108 room guest house for spiritual seekers and meditation. The site would be determined at a later date.

20 APRIL 1980

Note: After the evening aarati, Babaji spoke at length about the power of the mantra Om Namah Shivai. Some of his talk went as follows:

"I am happy that you are all on the way of religion. I am encouraged. As in past times, in certain parts of Europe there was a sincere adoration of fire.

Babaji then said "More than half of the people are oriented towards destruction" and went on to relate a story of how, at a time in the past (Mahabharata times), all the resources of Ravana's kingdom were used for the creation of a bomb so large and powerful that it was even more powerful than those we have today. Then some

positive and creative forces got together and created something that would be even more powerful than this enormous destructive bomb. They created the mantra bomb. "The mantra is still the only way."

Babaji then gave two examples of survival and said that those who use the mantra will survive in the same way.

First Example: When Lord Krishna was at a battle where everything was on fire, a locust came to pray at His feet. Krishna then placed His helmet over the locust. Everything on the field was burned and killed, except the locust, which survived under Lord Krishna's helmet.

Second Example: In a flour mill, all of the grain is ground up, just like people are in the destructive process. A few grains escape because they are near the center pole and fall down and away from the grinding wheel.

"I am happy that you are here. You should not waste your time while you are here. Have faith."

25 JUNE 1980

Note: Ashram Regulation:

Everybody who comes to the ashram must look after the ashram property. Do not let it lie around; take care of it and preserve it.

Everyone who comes to the ashram is ashram property. They come with My blessings. If anybody is lying about or is sick, take care of them. Everybody must take care of everybody.

You must preserve, maintain and beautify the ashram. This is your most important duty.

3 JULY 1981

Babaji stressed that the time had come to tell the world of His presence and His message of Truth, Simplicity and Love. He said that a committee would be formed to spread His word around the world. Babaji specifically mentioned China, Russia, and Korea as countries where His word would be spread. He said that all should undertake this work.

Babaji said that people did not understand that He had solved India's food problem since His coming and that a great change was going to take place in the world. During the times of the Mahabharata (Lord Krishna's era) and the Ramayana (the earlier era of Lord Ram), there were wars that lasted for days; but now the change would take place in one day.

Babaji said that He was now ready to make the Revolution and that it would come soon.

8 JULY 1981

Babaji said that before T.B. there was no illness. T (tea) and B (beedies a form of Indian Cigarette) make the blood thin. He said that we should not drink or use these things.

Babaji said that devotees should train themselves to be like members of a security

force like Scotland Yard or the CIA. Everybody should be advanced and attentive and should stand out and be recognized by others.

Babaji said that such a revolution was coming that nobody would know what was happening.

14 SEPTEMBER 1981

Babaji opened the general meeting by saying that anyone who was having any trouble or problems could speak. There followed a number of questions which Babaji answered:

Q. How can I still my mind ?

A. Do japa standing in water. The name of God should be repeated two and a half million times, sometimes standing in the water, as deep as you like, and other times sitting on your asan next to the water. Do this daily and then leave it when finished.

Q. At some times I feel happy but at other times I feel sad. What can I do to feel happy and keep my heart open?

A. You must do japa more regularly.

Q. Sometimes I think I should do meditation but I don't feel like it, and at other times, when I try to meditate and japa, I cannot concentrate. What can I do?

A. You should get up at 12 in the night, take a bath, and then do japa for about an hour.

Q. When will the dream given to me by my Guru manifest? Note: This question was put to Babaji by an Indian devotee who had been given a very wonderful dream. by his Guru the contents of which he couldn't reveal, some ten years earlier.

A. In six months and nine days.

Q. How can I know that I am doing God's will when I am away from Babaji?

A. You should eat only fruit and milk for nine months.

Q. How can I put together my love, for my girlfriend and my love for God?

A. You can first concentrate on the love for the girlfriend and when you are satisfied, then come to God.

Q. What is the quickest way to realize God?

A. Japa.

Q. Is it better to repeat Om Namaha Shivaya by chanting slowly or by doing it fast?

A. Do it quickly.

Q. Should one have children during these times?

A. Having children is a law of nature; what will happen will happen, you cannot stop it.

Q. Is it a good thing or a bad thing to be afraid?

A. It is a good thing. To become fearless, you should repeat the name of Babaji all of the time.

In summary, Babaji said: It is the duty of everybody who comes to Babaji to spread and repeat that name of God and to spread His message of Truth, Simplicity and Love. Those who return to their homes should go on tour and tell people that the way to save mankind is by following the teachings of Shri Babaji. Babaji used the term "Kranti", which may be interpreted as "revolution" or "destruction". He said that a Maha Kranti (great revolution) was fast approaching and would be known as the Blood and Fire Kranti. When asked if everybody would be killed in this Kranti, Babaji compared this destruction with that of the Mahabharata (the great battle fought in Lord Krishna's time), when all the great warriors were killed. Those who remember Om Namaha Shivaya and Babaji are protected and saved.

Babaji was asked how others could be helped during this period. He said that this could be done by spreading the word of His presence and teachings and putting these notices in newspapers published throughout the world. Babaji said that it is your, foremost duty to tell the world of His message.

Babaji was asked if the world would be a better place after this Kranti and He said this was a subject for the next General Meeting in December. He then said that everybody was invited to Herakhan for Christmas.

23 OCTOBER 1981

On 23 October, Babaji called a General Meeting which was attended by 44 Western devotees and a handful of Indians on the cave side at Herakhan Vishwa Mahadham. Shastriji and Lok Pal were requested by Babaji to speak.

Shastriji opened the meeting with Babaji's blessings and congratulated those present for being fortunate enough to attend this Royal Court Meeting, such as those Lord Shiva held long ago at Mount Kailash. He went on to say that Babaji's greatest leela (God's action in human form) is being present in Herakhan and being everywhere in the world, in every particle, both living and nonliving.

Whenever the world faces grave problems, the Lord takes human incarnation and comes to fulfill the needs and desires of mankind. However, when the Lord comes in human form, few recognize Him. It was the same with Ram and Krishna, Christ and Mohammed. Only those to whom the Lord wishes to reveal Himself realize that He is in fact more than just a normal human. He will put suspicion in our minds and hearts and it is our duty to pray to Him for the wisdom to know Him.

Without Babaji's blessing, one will only see His play at the human level, like that of Krishna with the gopis.

Lok Pal described the discipline of being with Babaji as the most difficult one could ever face, but went on to say that it is through facing this discipline with enthusiasm and openness that we will become pure enough to know Babaji and receive the love that He offers.

Babaji ended the meeting with the words, "Work is Worship", and said that at the 25 December meeting many important things regarding the past, present and future will be revealed.

7 NOVEMBER 1981

After the evening Aarati, Shri Babaji spoke to His assembled devotees about the coming times. Shri Babaji asked that we all have courage and that we all become like lions. "We should do our work with courage." He stressed the importance of Karma Yoga. "Karma Yoga is what will make you like lions; it will make you strong in this life."

"Don't disappoint Babaji. Don't be afraid of death, nor of the storm of water and fire. This life itself is water and fire. Don't try to stop it, but rather become like lions."

Babaji went on to say that He doesn't need many people; He just needs a few people who are really brave. "Be strong in the time of great revolution which is coming. No one can stop the fire coming in the world now. The bells of great destruction are already ringing. The war will be such that people sleeping will die immediately. There will be atomic war. People will die immediately in their houses from gas and atomic and nuclear radiations."

16 DECEMBER 1981

This is the third in a series of General Meetings. The first was held on 14 September and the second on 23 October. The final meeting for 1981 will be held on Christmas Day, 25 December. The meetings have led up to the 25 December meeting, which will have great importance.

From 24 December, for three days all expenses in the ashram for tea, prasad (the blessed meals), tea parties, food from the "Italian Restaurant" (a small restaurant, usually staffed by Italians, which produces foods flavored for the tender Western palate) - will be met by the foreigners. They will pay all these expenses. Whoever comes to the ashram during this period will be guests of the Westerners. These people should be entertained nicely, with the best accommodations and attention, so devotees, guests and visitors will always remember that they have been entertained well here. Herakhan is the most divine center of the universe. Everything should be wonderful here.

This Christmas celebration is of great importance in the history of mankind. It has never happened in this way before and will never again. This is the second celebration at Herakhan Vishwa Mahadham. However, this year everyone has been invited to come. Those here should be alert and attentive to entertain the guests well. The leaders will assign and delegate duties at the ashram.

By attention and good manners this will be an ideal example for all people. Set an ideal for the universe. Those who come should be delighted and carry this example with them throughout the world. By your example, a good impression will be made. In the history of mankind, Christmas has never been celebrated like this. This will be an international Christmas celebration. This is the first time since the birth of Christ that this celebration will be performed in such a special way.

All individuals should perform their duties so that everyone will remember their performance.

The Italian Restaurant shall be free of charge for three days free food, free tea, free everything-on the 24th, 25th, and 26th. Preparations should be made now.

Do you agree?

People will remember this for ages, not just years. People of the universe should know the birth of Christ has been celebrated in the heart of the Himalayas. It is very special to celebrate here in the Himalayas. It is your fortune to have the opportunity to participate in this auspicious, pious occasion.

It is the duty of each individual to pay attention and drop unnecessary activity. Do your duty! Do not be idle. This is an Age of Action. Perform your karma yoga. Show the world ideal actions. Service to humanity is service to and worship of God. Everyone should forget nationality: we are one here. This is a universal family. Have no idea of separation of identity: discard feelings of separateness. Serve the people with mind, body, wealth, brain.

The progress of Vishwa Mahadham is the progress of the world. When you work and learn here, you help the world. Make Vishwa Mahadham perfect. Work as a unit; there is no caste or creed here; there are no difficulties.

All good people are coming. Due to good actions - good karma - of the past, we are collected at Lord Shiva's lotus feet. All should think of the progress and perfection of this place. Baba blesses all who do their duty sincerely and with devotion. Do your duty lovingly.

24 DECEMBER 1981

Bhole Baba ki jai!

The message to all of you is that the most important thing in the world is humanitarianism, or humanism. For this, we should sacrifice all our self-comfort. Do not think of yourself or your comfort, but think of others. This is the great humanitarian principle.

In any town there is always a central place; all the roads in the town or from out of town lead to that central place. Similarly, all religions lead to one point, and that is God Himself; and therefore following any religion you will ultimately reach God.

In the past, mankind and humanitarianism had always been in trouble. Today the same situation has arisen. It is therefore that God has come Himself, to give you this message of humanitarianism and to protect you through a mantra - the universal mantra of "Om Namah Shivay," which has been spread now throughout the world. As you know, throughout the world there are factories of armaments which are being produced and stored to destroy mankind, or cause damage to mankind. Similarly, Bhagwan Herakhan's Vishwa Mahadham is a great factory, which has produced only one element - that is Om Namah Shivai. The energy of Om Namah Shivai shall destroy all contradictory energies of hydrogen and atom bombs and will protect you.

There are proofs in the scriptures that it was a great Gautam Rishi who created the atom energy and he has said clearly that the only thing which can conquer that atom energy or the hydrogen energy is the Om Namah Shivai mantra by itself.

Today all of you have come from different parts of the world. You are all welcomed here; furthermore, you are all congratulated for coming and having received the blessing of Bhagwan Herakhan. And also in the future, you should come here in great numbers so that the world will accept the sanatana dharma and Om Namah Shivai mantra, which is the origin of sanatana dharma.

Bhole Baba ki jai!

25 DECEMBER 1981

Shastriji Speaking for Babaji

Since the creation of the earth, God has always come to see and protect His garden of the universe. So He appears from time to time to weed out the tares and guide the devotees and all good people in the proper line.

At the present moment, God Himself has manifested in this universe to see the garden of humankind. The Vedas and the Upanishads repeatedly have said that this Lord Shiva is the only God; He is the Creator, Destroyer and Protector of the universe. This has been brought to the notice of everyone since the incarnation of God in Human form.

First of all, I am going to tell you that the future prophesied for India has been fulfilled. India has now become self-sufficient in respect of food grains. Apart from that, Babaji has started many social works - free distribution of food and clothing, free dispensaries and servicing schools and temples. He is guiding devotees in the proper way to realize oneness with God while He is protecting them. He has told about the coming disaster and destruction and how to save one's self from these times which are fast approaching.

Before the appearance of God in human form as Babaji, everyone knew that India was starving. The Indian Government was asking, even begging, for food from every country and food was being imported. Since his appearance, Babaji has performed 147 yagnas (sacred fire ceremonies and rituals) in many provinces of India and this has blessed the country and the world.

Among the different forms of Brahma, Vishnu and Mahesh which have appeared, Babaji in the human form now is here with us. It is our great fortune to see God in human form and enjoy everything that he gives to us. He teaches us Truth, Simplicity and Love and how we should behave with each other; how to love and how to share food and all things among us.

Whenever God is incarnated in human form, we see that the question of caste and creed does not arise. Everybody knows that gurus and saints have started their own religions and thus create separate lines of thought and separate sects. There has been no unity among these groups; everybody has been jealous of each other. Now Bhagwan has unified all religions. This accommodates every caste and faith, just like one family. All religions are incorporated in this principle of Truth, Simplicity and Love. People of all faiths and creeds are coming to His Lotus feet. From every corner of the world people are coming here to live and work as one family. This is the final proof of what he has started.

This is the real acknowledgment of God; whenever He comes, He unites all religions of the world into one religion. That is, He had made the Herakhan Samaj to accommodate Christians, Buddhists, Sikhs, Hindus, etc., in one family. We see that the realities of God exist in Shri Babaji.

This day is a most important and auspicious one, as we are celebrating Christmas here in a universal way. In the history of mankind this is the first time that Christ's birthday has been celebrated in such a way.

Now we have gathered here in a very important place. (This speech was given on ground dug out of a steep hillside to make a place for nine small temples, a big garden, barns and houses, and a large open space on which a tent had been erected

for the Christmas celebrations.) Once there were only heavy rocks and many wild bushes; the place was not fit for living; not even wild birds could live here. Now what has been constructed here is the product of people from all corners of the world. They have worked hard; they have shed their blood here; all this is the fruit of their hard labour. They have made this place comfortable, and this is due to the blessing of Babaji. Through His blessings they have been able to make this place comfortable quickly and yet simple.

Babaji has always remained here and the work has been done in His presence, despite hot sun, rain, and cold wind. So you want such a God Who Himself takes part in work with the labourers and Who sometimes has worked as a labourer Himself and shown the labourers how to dig, cut and remove the rocks. He Himself has shown this to us. Now the time has come to show the Path to others; how to do hard labour, not by sitting around, occupying His seat and issuing orders, but participating in all.

Babaji has started all types of social work - dispensaries, educational institutions, distribution of clothes and feeding the poor. He has given money to buy horses, cows, and has created jobs. He has not only done this work here, but is expanding all over India. There is a very big ashram in Vapi, in Gujarat, where Babaji has started a dairy and hospital for animals, schools, and other social activities. There are ashrams in Bihar, Rajasthan, Madhya Pradesh, Assam, Mathura (Mathura), Brindavan, Patna, etc. Everywhere His social activities are going on.

Once Parvati asked Lord Shiva, her husband: "You have done good work for the people in all ages, but I am afraid for the people in the Kali Yuga; how will they safeguard themselves?" Then Lord Shiva told Parvati: "I will appear in the Kali Yuga and I will create a new state, a new center of religion - a most important place, where I will live and establish all the Gods there."

All the foreigners and visitors who have come over here are descendants of the great rishis and munis. We should learn from them; their sacrifice, their devotion, their duty-bound work, all these things we should copy - how they are performing their duties here, physically, mentally, and financially. In all these things, they are giving help.

Many of the foreigners who have come here were searchers for a great Sadguru (Supreme Guru). Many others had visions or dreams of Babaji in their own countries and then came here to answer his call. They have worked hard and have done a fine job. Babaji is not at all attracted or tempted by material things. Whatever costly clothes the devotees bring to Him and He puts on, He takes them and distributes them to devotees. All that He does is for the betterment and benefit of all. We see this daily. So far as food is concerned, what He eats is negligible. He takes very simple rice, no cereal, and only a little fruit. But His feasts for us are from morning till night; He goes on feeding us like anything. Whatever comes to him. He never keeps anything in store. You can see that; and this is part of the reality of His divine quality.

We are unable to understand Babaji's divine leelas. As human beings, we cannot understand Him. He has come to give to us, but we are not fit to receive. We have first to make ourselves fit to receive, then we can sit near Him and understand Him.

Since his appearance, He has started the most important things. First, the yagna (sacred fire ritual/ceremony); secondly, the recitation of Om Namaha Shivaya; thirdly, the Sanatan Dharma, which is the religion that came with the Creation of the Universe: He has re-established it and is teaching us how to follow it. Fourthly, He is always giving clothes to the needy and medicines to the ill.

We see that God, in human form, from the beginning of time, from Creation to the Kali Yuga, appears in this universe for the benefit of mankind. This is not a new God; He is the Supreme God and it is His divine leela that He appears from time to time, as the times and conditions warrant. God has always given a new birth to all the creations and activities of the universe.

God now blesses every devotee on the auspicious occasion of Christmas. All your desires will be fulfilled and you should take to your heart all the prasad (blessed gifts from God) and garlands which He has given; and go on reciting Om Namaha Shivaya as much as you can.

God Himself says that action is the real duty. One who lives like an idle man is a dead man. He does not like such people. He says that one should be most duty-bound; one should be active; he should work hard in his life and then he can get success. God says work is worship. This is the Karma Yuga (the Age of Work). Only he who acts is considered to be alive; without action, one is like a dead person. A person who does not do some kind of constructive work is like a dead person. A new kingdom is coming very soon. When the new kingdom is established, only the person who does karma (i.e., works) will survive.

While working, you should always recite the mantra you like; you should always recite the mantra.

The coming destruction is going to take place in such a manner that only the person who is doing some karma, some work, will survive it. One should not lose courage; one should always be enterprising, trying to do something more than what he is doing.

A person might argue that when destruction is going to take place, why should I work? Why should I do any karma? But that is not right. One should work to his last breath. Idleness should always be avoided.

Babaji likes human beings. Humanitarian work should be done by all of us. Babaji wishes humans well. A person who follows this and who always keeps humanitarian rules in mind will be loved by everyone and shall survive all this destruction and shall remain happy. One should try to bring these humanitarian ideas to everybody who does not have them.

What does one mean by humanitarian rules and humanity? Babaji says one should not have any hatred towards anyone; one should try not to let down other people; one should try to help others; one should try to love all. In this new kingdom, everyone should be good. Babaji expects all this from you. And you should try to preach this to others - to those who are not here. Teach it to others; not only those around you, but in other countries, in the whole world - wherever you go, one should try to put it into practice.

Babaji thanks you all who have been so courageous as to come here and to do this work. He thanks you all for that.

5 JANUARY 1982

During evening darshan

Babaji says that many Western people like Lokpal Singh (the chief minister of Justice), Motu Begum Mahal, Radhe Shyarn, Sita Ram, Ganga Singh etc., have helped to create unity in the Haidak-handi Samaj. They work day and night to contribute to this unity. You should all follow their example. These people have worked very hard for the benefit of human beings in this world. Baba congratulates everybody. Gora Devi does tapasya (austerities) day and night for the benefit of the world. Babaji hopes that by the great effort of these devotees, things will become good. People should follow their example.

Little time is left before you shall see the new world. You don't have to wait much longer now.

To all the Italians who have worked very hard, who search diligently for God, to all of them Babaji is very grateful. The Italians will soon rejuvenate the Sanskrit language and the old Roman culture will be revived. Babaji hopes all the Italians will follow the path of truth and leave their addiction to drugs, which are not good for them. Babaji requests all the people who come here not to get addicted to drugs or other things like that, which are bad. Learn good, teach good, try to be good, hear good. Do good deeds and teach others. Babaji hopes and plans that there shall be peace in the world without weapons.

Babaji hopes to spread knowledge and stop the atomic science which is bad for the world. Today the world depends much on atomic energy. Whenever such sciences have reigned, the world has been destroyed. This is why during the time of the Ramayana, under the demon Ravana, Lanka was destroyed. Science today still has not reached the limits of knowledge that existed in the time of Mahabharata. Science then had really achieved limits that have not been reached yet today. For example Laxman was

able to place a protective line around Sita which could not be broken.

Babaji wishes for peace in the world. You may think that Babaji just sits here doing nothing. But He has been everywhere and is everywhere and is doing much. Babaji sitting here is still present in the hearts of everyone in the world.

Babaji shall see that there is great peace in the world. It has been written in all our great religious books that when Babaji comes, He shall be loving and help the cause of peace.

BHOLE BABA KI JAI

2 FEBRUARY 1982

Everyone should come to aarati on time. It is Motu's responsibility to see to this. You should all help keep the temple and kirtan hall in order and clean. To look after the temple is your responsibility.

You will live with the storms; you were born in the storm, so you should have the guts to fight the storms.

This is Radio Tehran speaking.

All of you should be ready. I will start a new revolution. A lot of revolution has already taken place. You may think that Baba does nothing but sit here; but He goes everywhere; He does everything, sitting here. The revolution is already on - all around the world.

We should give people inspiration from here.

I will not go around with a stick. You are the Messengers of the Revolution. Later, you will be the Messengers of Peace, but now, of revolution.

Vishnu Dutt Shastri spoke for Babaji; at the end of the speech, Babaji prompted each sentence. This speech was given in the Company Bagh (Garden) when work was under way on that project.

25 MARCH 1982

Herakhan Bhagwan and all devotees:

The Lord's Powers came here to change the world and by the satva guna they change everything. They don't need any other assistance. He doesn't give any special importance to this change being done by these Powers - it is like a game or play to Him. It is His natural, spontaneous function. It is just like an innocent child who collects many materials to play with and, for example, builds a toy house and then destroys it.

There are some children who don't like to play with toys but want to cling to their mothers - like Chiao (a small girl present at the meeting). They are always very anxious to be with their mothers. People who are like these children are called devotees (bhaktas); they choose to remain with God.

God comes to initiate us in Karma Yoga. Those who live in this world, which is a field of work, lose a great deal if they don't work, don't progress, remain idle. In every atom of this earth, Brahman is all-pervasive. Therefore, knowing this, if one tries to work day and night in this world, they find God easily.

Those who see the great God in the sun, moon, stars, earth, air, fire, and water, and always meditate on Him only, get success in life and are the true devotees. The Lord has come to give us true knowledge, but to understand knowledge is beyond human capacity. The sins of thousands of years are destroyed when He has made us to do pranams to Him and when He gives His Holy Touch. He expects every human being to make this world beautiful.

Up to this time, many incarnations of the Lord have brought war and violence to bring peace to the world. He is now preparing your hearts for the coming revolution, so you can face it peacefully. He has faith in no particular army; each human being is a part of His army and He will face atomic bombs and cannons with the power of the Word of God. On one hand, certain countries are busy creating weapons and armaments; and on the other hand, Babaji is nullifying these by having people loudly repeat the Word of God, bringing spiritual change.

In the eyes of God, no one is big or small. In every heart, the Consciousness there is His Reflection. In a short time He is going to destroy the bad elements and then change the revolution into peace.

The moving of stones from one place to another (this refers to the work going on at the site of the speech) is for your concentration and spiritual growth. When the insentient stones which are lying here become moved, Babaji installs in them a new consciousness. The stones are not lying here without purpose; they are also doing penance. By touching these stones, we receive a vibration of Higher Consciousness. We don't see anything outwardly, but this contact changes our body, mind, and spirit.

Whatever He is teaching you here, you must do at home, also. Babaji doesn't teach the Kriya Yoga which makes a disciple to leave all action. Whatever He is teaching, He is teaching practically. He doesn't want men to become like stones, without any activity, becoming idle. There are 300,000 nerves in our bodies; to give energy and consciousness to these nerves is the Kriya Yoga that Babaji teaches.

He is the Lord of the Universe. He enters into people's hearts and changes their thoughts. All changes taking place now are due to a simple motion of His finger. Wherever He goes, He puts new consciousness in people and brings spiritual change. Otherwise, He has no need to go from place to place.

His principle is service to humanity without expectation of reward. By distribution of this prasada (Babaji was Himself peeling fruit, while Shastriji talked, and having it distributed as blessed food), He teaches us to share with all equally, whatever we possess. Whatever is a part of the Lord's creation belongs to no particular person, but rather to all.

He is not preaching any new religion. He has come to preach the religion which occurred at the time of Creation, and that is the Santan Dharma - the Eternal Religion. He has come to preach the Sanatan Dharma only.

We can determine the date from which every religion started. For example, the Muslim religion was started by Mohammed 1400 years ago and this is recorded in their scriptures. Christianity started with the birth of Christ, 2000 years ago. Before Christ and Mohammed existed, the world and its peoples were living. The Sanatan Dharma has been followed for thousands and millions of years and no one is able to trace the date it began. You may try to understand this spontaneous religion this way: The dharma (law or nature) of fire is to burn; the dharma of water is to be wet; the air has to blow. Can one tell on what day the fire started

to burn, the water to be wet, and the air to blow? No one can say. Sanatan Dharma is like a great ocean. From that ocean, each country has dug canals according to their needs and purposes. But canals cannot give total satisfaction as the ocean gives complete bliss. The Lord is showing a vision of the Sanatan Dharma, which is like the great ocean, and this is the greatest form of knowledge. Until now, people only had knowledge of their own canals. Now the Lord is showing us that we aren't just bubbles in a canal, but rather bubbles in a great ocean. As long as we have individuality we are seen as bubbles; when we disappear, we are one with the ocean.

Placed before the sun in the sky, a thousand pitchers of water will reflect the sun. Then you will see that the sun in the sky is only one, but the reflections are many. As the sun reflects in all the pitchers, Babaji, sitting here, reflects in the entire universe.

Through the instruments in radio stations, news is broadcast to the world. You are all like radio stations. Even if Babaji says something to ten people here, it is broadcast to millions. Each of you will tell ten people more, when you return to your country.

There are ten temples here at Herakhan. They are symbols. They show us that the body is a temple with ten senses, and we must install God in our hearts within this temple. This body is a moving temple of the Lord. He wants us to make this temple so beautiful that wherever it goes, people would like to worship, have great reverence for it, and try to gain knowledge from it.

He has come to the world to save it from destruction; otherwise, this world would have ended. And now all of you have come to His shelter.

This is not an ordinary meeting; it is a Karbar - a Royal Court. This parashu (pointing to a ceremonial weapon that looks like a battle axe) is the "danda" of destruction, and those who do not obey will be destroyed by this. Those who are obedient will be protected by this weapon. Those who do puja, worship, and obey orders of the Lord will receive only soft punishment . . . Hail to the Raj Danda of Herakhan Bhagwan! See, the conch has started blowing. (Another Shastri had begun to blow a conch.) It is a good omen. It means something correct or true. The sound of this conch has gone into the three worlds.

At this point Shri Babaji began to speak and Shastriji reiterated and amplified his comments:

Shri Babaji: I want to create brave people in this world.

Shastriji: I am just a humble servant of Babaji; whatever He asks me to tell you, I will repeat.

Shri Babaji: I want to remove violence from the world.

Shastriji: Bhagwan wants to remove violence totally from the world. People have become like dogs and cats, killing each other. Now the time will come when the cow and the lion will drink water from the same well.

Shri Babaji: I will remove idleness.

Shastriji: Babaji says He wants to remove idleness completely and those who are eating without working cannot survive now.

Shri Babaji: There are certain elements that are destroying creation, but they will

be destroyed. One half of the work is almost over.

Shastriji: After His appearance, He has finished one-half of His work.

Shri Babaji: At this moment My representatives are all over this world. At the correct moment they will do their work.

Shastriji: Babaji has never left here, but He has sent His representatives all over the world, and in other worlds, also His work is going on.

Shri Babaji: The great revolution is very near! There is no one in this world to stop it. This is a time of great destruction. Everyone must become spiritually strong and courageous. He alone can survive who has spiritual courage. Without spiritual courage, one is dead though he is living. The time is coming very soon. So that is why you people all must work. And be brave. Everyone must consider himself a humble servant of the world.

Shastriji: We must become egoless.

Shri Babaji: Further will be told in the next court.

Shastriji: Today the Darbar comes to an end and all the saints and rishis who have come here (in spirit bodies) to attend this Darbar are leaving.

5 APRIL 1982

Everyone who comes here should be prepared to do any kind of work. In this Age, work purifies you and is the best spiritual practice (sadhana). Lord Krishna has said in the Gita that a man should work until his last breath. Work is such a good thing that it relieves man of all ailments.

6 APRIL 1982

I want to make people who have come here true citizens. I don't want this non-violence. The people preach non-violence, but instead they make water out of their blood. I want to wake up the sense of true humanity. With great difficulty you get this human body. I want brave and courageous people. A man must have great courage. I want to teach you Karma Yoga. In the Gita, Lord Krishna gave great importance to Karma. Other saints of older times have also preached Karma. The way of Karma is the highest. All the rishis have preached this. That is why we must all work.

In spare time, everyone must do bhajan (meditation, japa, singing).

World war is about to start and I want to wake up humanity.

After the evening Aarti on 13 April 1982, Babaji spoke briefly about man's duty. On this particular night, the reading of the Sikh Guru Nanak scripture had been started by a number of devotees who had travelled to Herakhan for this purpose. Whomsoever come to this ashram should follow the rules and help maintain peace and order here. During these days you should go on maintaining peace and discipline as you have been doing.

Learn to talk less and work more. This is the field of spiritual practice. Karma is the highest way of perfection. It is a great thing to take a human body. Whoever comes to the earth must do work. In the Gita, work is said to be the highest form of sadhana. Everybody must work; an idle man, even though he is living, he is dead. All who have taken birth must work to be successful.

One of the things that I want to do is remove idleness from the world. I want to show all of mankind the way to peace and happiness. This will only be possible, if bad elements are removed.

I want to make everybody brave. Man's blood has become like water*. So many atrocities are done, and people let them happen in the name of non-violence. Non-violence is not for this. I do not want people to be blind when they have two eyes in their heads.

* Here Babaji is said to be recalling an Indian proverb about those who do not resist when evil is done. One must be strong and protect righteousness.

I have said time and again, be courageous and work hard -- ponder on this thought. Over one half of my work is done. you may wonder how I do everything while sitting in Herakhan. From here I am able to change the hearts of the people throughout the world.

After this, there will be another meeting and you will again be told about the past and the future.

I do not want people in the thousands and millions to be my followers. Only one is enough. One perfect being is enough to change the world. Rama, Krishna and Christ were not many, they were only one. There was only one Rama, only one Krishna, and only one Christ; and they changed the world. Buddha was also only one and he changed the world. I tell you these things so you will not think that quantity is necessary. One spark from the light is enough to enlighten the universe.

Again and again, I repeat these things to that you will become courageous, work, and face life as it comes day-to-day.

Babaji continues to hammer away at these themes. In November, 1982, He had these comments to make on the subject.

"Now everyone feels insecure. I want to raise the character of man so high that people as different as the lion and the goat can live together without jealousy or hatred - only in love.

"Kindle the Light in yourself, then kindle It in others - one by one. Just as when the lamp burns it consumes oil, so this Light will consume idleness, laziness, greed.

"Your duty is to spread my message and bring people to the level of humanity, rather than their animal level.

"You all think devotion is fun. Some day you will have to jump without fear of life or death; then you will be able to make progress. When the time comes, you will have to walk through fire and water.

"Only the man of courage can live through this time.

"Like spreading light by lighting one candle from another all around a room, so we should spread love from heart to heart.

"You must all walk in the Path of Truth and give right teachings and instructions to the world. Everyone should walk the Path of Truth and teach family, and friends, and all."

4 APRIL 1982

Shastriji, speaking in Baba's presence, then saying what Babaji told him to say: By the Grace of the Ultimate, Absolute God (Brahman), Shri 1008 Bhagwan Ashutosh (One Who gets easily pleased), Awadhardani (Giver in plenty), Shri Kashivishwanath (the Universal God Who lives in Benares), Kailashguhabihari (the One Who lives in the cave at Kailash), Mahamunindra (the greatest sage), Shri Herakhan Behari (One who enjoys Herakhan), in the beautiful courtyard in the Himalayas, the crown of India, at the holy pilgrim center, Herakhan Vishwa Mahadham, this assembly or gathering of Sikhs has been a success. This assembly has been for the universal good and benefit of the entire world.

From far away places the great men - Guru Bhaktas - among the Sikhs arrived here. During this great spiritual gathering, on the holy day of Vaishakhi, the first day of the month of Vaishakha (April-May) of the Indian calendar, the continuous recitation of the holy Guru Granth Saheb (the Sikh scriptures) was completed in 48 hours, with all rites and rituals of the cult.

This is a matter of joy and we are all fortunate to have had the opportunity to attend this assembly and make this time of our lives so successful. Holy words, full of nectar, coming out of the mouths of the true Gurus vibrate throughout the world. Especially when this news went to Sach Khand (the true Eternal Abode), then it seemed as if all the Gurus had come here to hear the recitation of this holy book. Guru Govind Singhji is also sitting and listening. From every pore of their bodies blessings are pouring forth to all beings.

This effort was made for the benefit of the world. The holy words in Guru Granth Saheb are great mantras. By correctly performing the worship and recitation of these mantras, a being achieves righteousness, riches, pleasures, salvation and fulfillment of all other desires during his life. The soul begins to swim in the waves of bliss and the mire of the world disappears from the eyes.

The true wish of Shri Mahaprabhuji (Babaji) is that our Sikh religion, which exemplifies the true Guru Bhaktas, should progress in the entire world. This is a holy Indian cult scripture, in which the essence of all the Vedas and other scriptures are given. After testing the sweetness of their own experiences, the great Gurudevs have written of these experiences for the benefit of the world, and kept it like a treasure trove for the coming generations.

If we are to save humanity from attachment, ego, illusions, and other evils, then we must gain knowledge from the holy Sikh Dharma (religion). All of the divine qualities, like patriotism, spirituality, knowledge, non-attachment, etc., are shown in a perfect manner in this Sikh Dharma.

What can a man not achieve when he surrenders to his Guru? Shri Mahaprabhuji has the holy thought that the revolution must be done peacefully. As long as we are not able to rebel against the bad qualities in our hearts and minds, we shall not be able to attain our goals in life. Shri Mahaprabhuji wants all of the elements which weaken religion removed and abolished. We should have great faith and love for our religion.

Great Gurus kindly began this cult as the essence of all religions. An assembly of this great cult has been going on here for many days. Shri Mahaprabhuji expresses his good wishes and showers blessings on the followers of all religions. Cooperate with the Sikh religion and progress in righteousness.

One whom God loves is victorious in all spheres of life. Honor be to the holy Way of the Guru! Honor be to the Victory of the Guru!

This is a speech given by Shastriji on 5 May 1982, in the presence of Shri Babaji, on the occasion of the wedding of Manju and Prabhat Joshi and the inauguration of the new "Company Garden," located on the river bed about 50 yards below the bottom of the 108 Steps at Herakhan. Shri Babaji became a participant in the speech toward the end.

To the Absolute Lord, Herakhan Bihari, Kashi Vishwanath, Lord of the Universe, and to all brothers and sisters, devotees of Babaji present here today.

Today is very auspicious. It is the month of Vaisakh and the 13th day of the waxing moon. It is the day Prabhu has selected to hold a Darbar (sacred audience). The field where we are sitting is now called Company Bagh. This name is given to honor the people who, in company, have worked here with a spirit of great devotion since March 26th. Their good work goes on.

Prabhuji sits with us so that we may come to understand the importance of Karma Yoga and remove idleness from our lives. The stones to build the surrounding wall were taken from this field by the practice of Karma Yoga. Only by Karma Yoga can achievement be gained in this world; idleness is a despicable thing. Before, this field was rocky and uneven; but now you see it level, like a garden. Similarly, only by hard work can a man achieve success.

Today is the inauguration of the Company Bagh (Garden). Today is also auspicious because two souls will be united in a wedding ceremony here. By playing with us during this event, Babaji gives us so many teachings. If we try to understand these teachings with cool and steady minds we will be successful. Babaji teaches all people - householders, seekers, celibates, and renunciates - according to their needs.

In olden times, kings like Sharyati used to go to the ashrams of great rishis for the marriages of their daughters. These ashram marriages were and are very helpful to society. We sometimes read in the newspapers that a girl has committed suicide because her parents were unable to raise a dowry for her. Parents, likewise, suffer for this reason. With this in view, Babaji has such ceremonies as the thread and wedding ceremonies performed in the ashram. Ceremonies performed in accordance with instructions and in the presence of saints and Manifestations like Babaji bring great peace to the participants.

Marriage is of great importance in one's life. This relationship may last for centuries. In marriage, two souls coming from different places unite through an inner inspiration. This is a great thing and an ancient tradition. On these occasions a family is prepared to spend what it has earned. And here is something awesome: the girl, along with many household goods, is offered by her parents to the bridegroom. The bride surrenders completely to an unknown person, and the man offers half of his worldly goods and future earnings and accumulations to the bride. Therefore, this ceremony has great importance. But now, day by day, these ties in society are being loosened. What can a householder do? Great Beings like Babaji come to show man the right practices.

When a person comes to Herakhan, his mind grows steady and peaceful. In the last three years Babaji has built nine temples, a big garden, and two houses, out of what used to be a hillside. Formerly, there were no stairs on which to climb, and no buildings above; this was a forest. It was difficult even to get cement brought

here. But now see how many buildings there are! See how much construction has been done. Everyone must be constructive like this.

Babaji has given some guidance to the bridal party*. His mild rebuke was given in love and is very good for the new couple. From the beginning of their married life they will become alert. Marriages are not made by men; they are made by God. This boy and girl who will be married are very fortunate; in the future, they will shine and the blessings of Babaji will be with them. There are very few who have this opportunity. Usually, people are married in a haphazard way in their own houses, but there is great fortune to be married in a holy place. The marriages that take place here are long lasting. The history of this place becomes a witness to the event. As long as there is a Company Garden here, this marriage will be remembered.

*The bride's family arrived in Haldwani two days before the wedding, but waited there until the morning of the wedding and arrived late at Herakhan. Babaji told them they had lost sight of their real purpose - to reach Herakhan and gain the Lord's Blessings - and that their conflict and delay was not worthy of the pending marriage. For some time He refused to allow the wedding to proceed, but finally relented.

Shri Babaji has come into the world to show us the right path. He is doing it for everyone, while sitting here. There are ashrams devoted to Babaji in many foreign countries and He directs them from here. This is a divine leela of Babaji; within eleven years of His coming He has made many ashrams and temples. Even the greatest of kings cannot accomplish these things without a penny in hand.

Shri Babaji has unfathomable powers to satisfy individual needs. Many people have encountered frustration and failure before coming here and have been shown encouragement and the correct path. Many people have come here suffering from various diseases, and were cured. Babaji sometimes plays with His disciples like a mother plays with her child. Sometimes a mother wants to see her child cry, so she hugs him very hard. Babaji also does this with His disciples.

Babaji has come to change the world - not by fighting or with weapons and armaments. He transforms by changing the hearts of people through a simple method - repetition of God's Holy Name. The vibrations of the Name will change the world. There will be universal understanding - one nation, one family. This is Babaji's intent and it will soon come about.

Great armaments have been made, which can destroy humanity and most of the earth. But there is a greater protection sitting before us and He has given a means of protection more powerful than the atomic bomb. Those that want to kill will be destroyed. You must concentrate on the name of God and the instructions that Babaji has given you. Repeat OM NAMAHA SHIVAYA and you will receive Babaji's Blessings. At this point Babaji began to give instructions to Shastriji about what should be said:

Prabhu's mood now opposes non-violence. Non-violence is now contaminating the world. Non-violence of itself should be removed from the world. Culprits must be punished. For security we must employ strength. Babaji wants some violent people so that others may grow in wisdom and discrimination and learn to make decisions. Now you see a sweet form of God, but in the future you will see a fierce form of God. Peace will come only after a Kranti (destruction/revolution). Babaji says a Kranti will come very soon and in the twinkling of an eye will spread over the world. This is why Babaji cautions us again and again to be alert. During this Darbar a glance of future events is given. There will be destruction in

the Punjab, West Bengal, and other Muslim countries. Some countries will be obliterated -- nothing of their future will remain. Most parts of America will be destroyed. Russia will survive.

In the times of the Pandavas (Lord Krishna's time), a Rajsuya Yagna* was performed and Russia was not affected then. In the time of Lord Rama, an Ashwamedh (similar to a Rajsuya Yagna) was conducted and Russia was not challenged. Somehow, due to the Grace of God, Russia is always protected. In Siberia, there is a temple community devoted to Hanuman, where Hanuman can be seen depicted serving Ram and Sita. Somehow there will be peace in Russia.

* This was a religious ceremony followed by challenges to surrounding countries and kings with the intent of gaining supremacy over an enlarged empire.

13 MAY 1982

Babaji spoke briefly to an evening Aarti crowd on May 13, 1982. At the time he spoke, a fierce rain storm was subsiding. Unseasonable rain and cold wind storms had been sweeping through the Herakhan valley for two days, and Babaji was emphasizing what he had said about the weather in private to a small group of people the day before. Babaji asked Om Shanti to repeat what He had previously said, and then prompted her when she began the recitation. What follows is a composite of Babaji's statements, rendered with the help of Om Shanti:

"The temperature at Herakhan will become like Badrinath**. Snow will cover the mountains, valleys and the banks of the Gautama Ganga. You can't imagine how cold it will become at Herakhan. Below Bareilly, people will die from the storms and floods. The atmosphere will change completely. There will be so much cold that people will die. Those who repeat OM NAMAHA SHIVAYA, who are righteous, and those who are God-loving, will be protected."

**Badrinath is a sacred pilgrimage temple in the high Himalayas.

Babaji again spoke briefly to the evening Aarti crowd on May 14. Four Italian devotees were to leave the following morning and Babaji had personally arranged to have them taken to the Dam site (where a road starts) with horses.

"Italians come here in great numbers. Their devotion is great. If two hundred Italians were at Herakhan, it would cause a revolution in the ashram.

"Today the Italians are a great disappointment. Now they are lazy and all they want to do is sleep. They don't like to work. I want horses of a good breed, ones that are always alert and work hard. Some horses are so alert that they do not even sleep at night.

"Italy has degenerated from what it was during the Roman Empire. Now they have fallen. I want the future generations of Italy to be better. All Italians must be ready for revolution. The impurity which has cropped up must be rooted out. I want you to understand what I am teaching.

"I want you to cooperate in spreading the word throughout Italy that a revolution is coming. You must publish it in all the newspapers and broadcast it through the media. Tell them a revolution like Mussolini's is coming. You must all become brave like Mussolini, soldiers for your country.

"You must all consider yourselves soldiers of your countries, and spread my word by every means available, throughout the world. Repeat OM NAMAHA SHIVAYA and pursue your devotional practices."

21 JUNE 1982

I congratulate you all for the progress you have made in the universal service you are doing here. The work is not only for individual progress, but also for the progress of mankind. You must continue this development.

From this place-Herakhan Vishwa Mahadham-the whole world is blessed. Herakhan Vishwa Mahadham is not the property of one person, it is the property of all mankind. Progress made at Herakhan Vishwa Mahadham benefits the universe. You are fortunate to be in Herakhan, because even the gods long to be here.

Humanity is making a grave mistake by misusing non-violence. Time and again I have said this to you.

You have come into the world to work. You must always be eager to work. The one who is idle is like a dead man. You have come to this world to live, not to die.

Work which I want to accomplish is to remove the misuse of non-violence. People have become lifeless and their blood has become like water. You should be brave and courageous-afraid of nothing. You should not be afraid of being burned by fire or drowned by water. If you are brave and courageous, nothing will harm you, not even the atomic bomb. You must be fearless for yourself and for all humanity.

I do not recognize castes and races. I behold only one humanity. I am working for mankind while here. Over half of my work is finished. There are devotees working all over the world. I will complete the rest of my work while here.

25 JUNE 1982

Babaji had asked the Italians to sing an Italian song. When they made no response, after a little time, Babaji spoke:

You must all sing bhajans (devotional songs) wherever you are. In your countries you should assemble at least weekly for bhajans and kirtan (songs repeating God's names).

I emphasize work - karma yoga. The real bhajan is to do work. An idle man is like a corpse. You must work.

Make ashrams. As there are islands in the sea, you should make ashrams in the ocean of the material world. Do not make small ashrams, like individual huts, but big, central ashrams, where many people can gather and learn to work together.

All of you have worked very hard here, with love. Those who dedicate themselves to universal service are fortunate and great. Morning and evening you should spend time reading the scriptures and the literature of Herakhan.

Everyone here is a soldier of Herakhan. Be dutiful for the sake of duty. Be prepared to make sacrifices. Do not fear the floods and flames of life. Be alert and prepared to face changes. Give this message to your countrymen. The time has

come! Do you understand? Be alert!

29 JULY 1982

Those who come here should not be lazy. You must be prepared to work. I want very much that everybody be brave, active and hard working. Never lose courage. Because you have taken this birth, you must seek achievement. And to be successful you must work hard. The world requires fortitude. Become courageous and lead others to courage.

As you have known for some time, the world will change. The lazy person is a burden to the world. That is why I tell you to work hard and have others do the same. There was only one Christ but through Him many have been transformed. Do not think there will be many Christs, Ramas or Krishnas. Throughout history it has taken only one determined man to lead others and change the world.

Times will change, so you must resolve in your hearts to be industrious and courageous. Those who are strong like iron are fit to flourish. To become strong does not mean to become harsh and heartless. To become strong means to grow beyond pleasure and pain: beyond heat and cold.

The creation is vast and there are many doctrines. Adhere to one principle - that of Truth, Simplicity and Love. Live in Truth, Simplicity and Love and practise Karma Yoga.

This, more than others, is an era (yuga) of great destruction. Man has become enslaved by his lower nature. I have come to guide humanity to a higher path. I do not belong to any particular religion, but respect all religions. I seek the elevation of all mankind. The higher self in people must be developed and enthrallment with the lower nature destroyed. It will be destroyed in countries all around the world by changing the hearts of mankind. Do you understand? Now that you understand, you must live in Truth, Simplicity and Love and take this message into the world.

This ashram belongs to you. Learn the rules and follow the discipline while you are here. Then, wherever you go, teach others the same discipline. Become powerful and help others to do the same. Be very attentive and alert and prepare to face life in the times that will come.

17 AUGUST 1982

I want to describe again how you must be diligent in your work. The world demands hard work and constructive action, so you must apply yourselves fully to your work. Do not fall back, but instead go on. Each step you take will benefit the whole world.

Fulfilling your duty is the highest accomplishment - higher than any other sadhana, penance and the rest. Your duty comes first. The result of hard work is happiness and the result of laziness is pain. Troubles of this world are caused by inactivity. I repeatedly tell you this so that you will be industrious and be benefitted.

Everybody worked hard on the Ashram "Company Garden" and you can see the results - how green it has become. Now you are working hard on the ashram fruit orchard. The first garden was agriculture and this one is horticulture. But the point is that these fields are not for me: they are for everybody. As much right as I have to this property, you have also.

I want you to become brave warriors and attend carefully to your own duties. This is good for you.

I want to see all the people liberated who have become dependent on the illusions of the material world. Life itself is uncertain and now the earth is endangered by atomic weapons and nuclear power, which will be eliminated.

I want a world of brave and courageous people. Indeed those who work hard and are agnostics are more acceptable, for a time, than lazy spiritual hypocrites.

I want to see the mis-use of non-violence eliminated. Man's powers of discrimination and his very blood have become thin from pursuing false doctrines. Those who would misuse appeasement defeat the purpose of life and become like mindless donkeys carrying loads on their backs.

You must all join in this universal work, so that these things can be accomplished here and now. People devoted to God are active, and in India, the temples and religious centres that have been destroyed will be renovated. People are becoming more and more aware of the efficacy of spiritual potency.

Each of you must cultivate great courage in yourselves to overcome harmful tendencies in this period. There have not been hundreds of Rams, Krishnas, Christs or Moseses. But the individuals have had tremendous effects on the whole world. Now change on a vast scale, such as at the time of the Mahabharata, will take place. Do not fall back in your work, but go on. Karma yoga is your first duty.

I have said all of these things many times before.

Every moment, in each breath, while eating, sleeping and working, remember the Lord's name.

30 SEPTEMBER 1982

To follow and demonstrate the path of Truth, Simplicity and Love is man's supreme duty and the highest Yoga. Diligent work is a quality of this path, for laziness is death on earth. Only by work can one claim victory over karma. All must strive to do their duty in the best possible way and not to wander from that duty. Service to humanity is the first duty. During these times, inhumanity and laziness have increased, so it is important that you work hard and not lose heart. Be brave, be industrious; work hard and have courage.

14 SEPTEMBER 1982

Bhajans should be sung like a flower gives nectar - sweetly and softly. Drums, 'chimtas' and other instruments should be played quietly. Some bhajans are more appropriate for singing at different times of the day. Listen and learn to make proper selections for the morning and evening.

On the same day, Babaji recited a new bhajan for singing in the evening:
RAM NAM TUM RATAT CHELORI (Ram, name, you, recite, continue/continually/go on)
Recite Ram's name continually

RAM NAM TUM RATAT CHELORI (Ram, name, you, recite, continue/continually/go on) Recite Ram's name continually
RAM NAM TUM JAPAT CHELORI - do jap

RAM NAM TUM BHAJAT CHELORI - sing
RAM NAM TUM PARHAT CHELORI - read
RAM NAM TUM MAN MAIN CHELORI - in your heart
RAM NAM TUM LIKHAT CHELORI - write
RAM NAM TUM BARAT CHELORI - fill with
RAM NAM TUM KAHAT CHELORI - say
RAM NAM TUM BOLAT CHELORI - speak

16 SEPTEMBER 1982 (Evening)

Babaji invited everyone who comes to Herakhan to return to their countries with water from the Gautama Ganga and Vibhuti (ash from the Sacred Fires). These are to be used for healing and blessings from Herakhan.

1 OCTOBER 1982

Conversation with Babaji

In the Kirtan hall at Herakhan, a Western devotee approached Babaji, having in mind to ask permission to obtain a long-term visa for returning to India and to present all of his belongings to Babaji. The Westener, who had been assigned temple duties by Babaji, had recently been offered yoga initiation by another Babaji devotee and had asked Babaji if he could accept the offer. Babaji had told the Westener that he should take initiation from somebody else and then told him that he should go back to his country. Babaji's comments were made directly to the Westener.

"You are being sent back to your country because you have lost your faith. If you were a true devotee, you would have unshakeable faith and a steady mind. What are you doing believing that a man who himself is not a yogi could initiate you into yoga? This I do not like. By giving you temple duties, I had accepted you as a devotee. To devotees I give Abhaya Dhan, the blessing of My protection, by which you will always be protected and should be fearless. I am responsible for you and your liberation. Whatever initiation you need, I will give to you. Why then should you doubt or seek elsewhere?"

The Westener responded that he had been motivated by spiritual greed. Babaji continued - "What would you not receive from me? Your faith must be as mighty as Mount Meru. Even the sun and the moon can move from their course, but the faith of a devotee should not be shaken. A true devotee will be ready to shed his life for God and will have faith to his last breath. Never be moved by false doctrines. You are protected in every moment."

Herakhan Vishwa Mahadham is the most sacred place on earth and the residence of Shri Herakhan Babaji. All who come here are members of a universal family who must demonstrate to the world their good character and attentiveness.

Two traits which Shri Babaji dislikes in people are acting like sheep, one blindly running after the other, and deceitfulness or cunningness. Shri Babaji appears in the world to lift people out of such conduct to the highest level of character and to enlighten all mankind. The basis of the fellowship of those who come to Herakhan is faith in Shri Babaji and His teachings. Faith increases with time and so do the numbers of people coming to Shri Babaji. One of the signs of the greatness of the attraction of this place is that Babaji has never travelled outside of India, but

just as all rivers flow to the sea, so too do people from all over the world travel to Herakhan.

According to the traditional Hindu measurement of time, we ' are now in the 28th kalpa. The first man and first woman in each kalpa are called Manu and Shatrupa. They are very holy and learned people. From the dawn of creation Manu, from which the word Mansarovar is derived, and Shatrupa have done penance in this sacred place. Here on the Kurmanchal Mt. Kailash, the first Yagna (sacred fire ceremony) was celebrated by them. At that time, there was nothing but deep forest from here to Delhi and northward everything was covered with snow and ice. With time, cities developed and the area became populated. Along with Lord Shiva, who had His main seat here, they moved to the Mt. Kailash in Tibet, and Lake Mansarovar also moved to the north. The original Manu performed the first yagna here and the last Manu did yagna at the Tibetan Kailash. Arid, it was here that Lord Shiva and Parvati, daughter of the Himalayas, came to live. Lord Shiva also always remains here with the gods as His courtiers and servants and plays His divine lilas. The asan of Lord Shiva is the top of Mount Kailash and the old cave below is the divine place of austerities of Lord Shiva. The original havan kund (sacred fire place) is still here on Kailash as well as signs of the original Lake Mansarovar.

It was here at Siddheshwar, the peak next to Kailash, where Lord Vishnu came to perform penance. When Lord Shiva was at Mt. Kailash and Lord Vishnu at Siddheshwar, the great Rishi Gautama came to do penance. By the powers gained from his penance, the Rishi created the Gautama Ganga river which still flows here. Rishi Gautama went each day to Kailash to worship Lord Shiva. The river was then very broad and difficult to cross, so the Rishi asked Gautama Ganga to make herself narrower. Gautama Ganga became obstinate and refused, so the Rishi cursed her and sent her below the earth, where she flowed underground to join the Ganges at Banares. This underground connection still exists, however, the Rishi in time took pity on Gautama Ganga and lifted her to the surface a short distance from Herakhan, where she began to flow in a smaller stream, as today. Once this was the greatest river in India. Those who bathe in these holy waters will be liberated from the ocean of this world.

An incident involving Lord Vishnu gave this place the name Herakhan. Lord Vishnu took an incarnation as Haya Griva (horse-faced), because a demon who had a face like a horse had been granted the boon that he could only be killed by one with a similar face. Lord Vishnu took this form and killed the demon. This happened here, so the place came to be known as Haya Griva Khand (Khand means area or place). Over time, the name was transformed to Hairakhand or Herakhan.

Having some doubt, Kartikeya, son of Lord Shiva, once asked what would happen to man during the Kali Yuga when there would be so much trouble in the world. The Holy utterance of Lord Shiva was that he would manifest in the Kali Yuga to uplift the world and liberate those who turn to God. Shiva now lives among us in Shri Babaji, Who is doing the services for mankind now from Herakhan Vishwa Mahadham.

At Herakhan, no one is restricted to only one kind of devotion or learning. All have a right to their form of devotion to God. You, who have assembled here are able to experience the development afforded by this place. Not all who come here are advantaged or rich, but all have been pulled by their hearts. As air enters a vacuum to fill it, so too you have been pulled. Those coming from the West have been saints in their former lives and were born in technologically advanced cultures to fulfil Karmic desires, but are drawn to Shri Babaji when that karma is about to be satisfied. Shri Babaji teaches us about the unity of creation. We are all made from the five elements; we are all of one spirit. In all respects, we are one humanity, one human family. Limitations arise from political beliefs and world

leaders who hold thinking to time, place and culture, thereby creating differences and separateness. The birthright of all mankind is to love and follow God. Limitations arise from erroneous human beliefs. Shri Babaji has appeared to illumine the minds and hearts of mankind, so that unity and harmony may be known by all.

OM NAMA SHIVAYA

16 NOVEMBER 1982

Of greatest importance is that the repetition of God's name increases daily. In this way, your heart and mind will be purified. Only then will you find God in yourself.

The mind can be purified only by japa. This is the only medicine for the disease of the mind. While your mind and heart are impure, how can God live in your heart? The water to clean your heart is the Name of God. So teach everyone to repeat the name of God – everywhere.

I do not want idle people. Japa does not take the place of karma. Japa and work go together. You must be active in God's work, like King Janaka who ruled his kingdom always with his mantra in his mind. Arjuna fought the Mahabharata battle, constantly remembering God's name.

I do not want japa to be a pretext for idleness. Do japa with your work and be liberated.

I do not want God's name to be like stagnant, muddy water, but like sparkling running water. Work and be Light; Repeat God's name. With a concentrated mind always repeat God's name.

We must always have good thoughts for each other. When you meet, say "Jai Mahamaya Ki!" Mahamaya is the great energy of the universe.

OM NAMA SHIVAYA

1 DECEMBER 1982

Question: When there is a nuclear war and a bomb lands, say in Bombay, all people, including the devotees, will die. What do you mean by "saving them through the mantra?"

Shree Babaji answers: The fear of death is born with man, though this is the only thing he knows is certain to happen to him. Attachment to material things make man cling to life. When you chant the Name of the Divine, when you are one with the Divine, you accept death. While you are attached to life and afraid of death, you die with that fear and that weight clinging to you. If you have attained liberation you are free from death (you accept the inevitable). You die without fear and by remembering the Name of God, your soul leaves the body free of that fear and attachment. If you are reborn, your soul is still free from that fear. If you die in "unity", you are free from rebirth, unless you will it.

24 DECEMBER 1982

I congratulate and bless all who have assembled here from so many countries at this auspicious time. Today is a most happy and sacred day. Here, at Herakhan Vishwa Mahadham, people belonging to many religions and faiths have assembled to celebrate, with great religiosity, the birthday of Lord Christ. Devotees and lovers of Christ have given their labour, body, mind, and soul to enhance this celebration.

This is an auspicious occasion of historical importance. Today all are blessed. Your body, mind and soul all have been purified. You have come with faith, love and devotion, as you have in past years, to celebrate the birthday of Lord Christ with great enthusiasm.

There is but one instruction to give. There should be humanity in you. People of all countries should unite with each other as brothers. All of you must be happy and healthy and appreciate the joy of life. The highest thing in the world is karma-hard work. Idleness makes man lifeless.

Spread this message in your country-spread the light of righteousness to the hearts of others. Let the seed of human love and humanity which is in you flower and be fruitful. Organized powers are always stronger than individual ones. Let the message of this organization be spread in the whole world. The Vedas proclaim-"grow wise and learn; awake your countrymen."

Remove hatred and jealousy from the heart. The same thing has been repeatedly written in the Bible and spoken through Christ. Where there is jealousy and hatred, there is no religion. If there had been humanity in people, there would have been no necessity of making atom bombs. Years before, people would have left righting weapons.

All of you have sacrificed your body, mind and soul in increasing the beauty of Herakhan. In the making, in working here, all of you have invested your energy and have worked so hard and this Vishwa Mahadham is your soul. The structure of this place is now in all of you. You are responsible for the structure.

May all of you be happy. Live together and live peacefully. The divine message from the great rishis of olden times has not been successful up to this time. In the Treta Yuga, there was the incarnation of Shri Ram and in Dwapara Yuga, there was the incarnation of Shri Krishna. Even after the great war of Mahabharata, the unrighteous were prevailing and innocent people were molested. So the blessings of great rishis-that all people be happy-was not fulfilled, even in those times. But in taking the OM NAMAHA SHIVAYA mantra as a base, we have great hope that people from so many countries who have come here will go back and that the holy vibration will go with them, and everywhere there will be peace.

26 DECEMBER 1982

I am happy to see you here and bless you and congratulate you for coming and organizing and making this celebration so successful. The seeds of righteousness have been sown in your hearts for you to kindle the hearts of others. I seek the general good of all people in the world. You must do all work to perfect humanity. By saving humanity, everyone will be saved.

Individual leaders have spread poison throughout the world. I want this poison removed. Learn to love your religion and consider yourself a soldier of your country. Feel this in your heart. You must work to elevate humanity and eradicate

pride, jealousy and hatred. Today humanity is in great danger and there exists no security of person or wealth. The problem is not of one nation but of the whole universe. Unite in an organization to achieve power by gaining the goodwill of the majority of the people at present.

Unite in love to elevate yourselves. Each one of you must vow today to sacrifice everything to obtain oneness with yourself. Be rid of attachment in your heart and be ready for the sake of righteousness to jump into the flames and water of life. Be prepared to burn your very bones, if necessary, to secure the public good and righteousness.

Time and again you are told that idleness is like death and will destroy you. An idle man is a burden to this earth, so each of you must work hard. Spend your time in working. Work is life. Work is worship. A man who spends his time in idleness is like a dead man. The time is coming when you will have to be working to be saved. In this world, change is going on every minute. What we feel or do in this moment will be changed in the next. The time will come where there will be big cities where there was sea and sea where there were cities. You are intelligent and know these things, so there is no need to tell you more about it.

Karma yoga is the highest religious practice of this time and will liberate you. The scriptures declare that at the end of each Yuga only Karma Yoga will help you. Lord Ram incarnated and there was a war between Ram and Ravana that took 14 days. In Krishna's incarnation, there was war for 18 days. In this Yuga, the destruction will come within the flicker of an eye. This destruction will be such that those sleeping will be left sleeping, those standing will be left standing. The whole world will be transformed like this. In this destruction everything will finish; nothing will remain the same. You should therefore leave your attachment to the world. Only repetition of God's name will be useful for you; otherwise it is hopeless. God's names are more powerful than a thousand atomic and hydrogen bombs. Help yourself by repeating the Lord's name. All of you know that God's name is the highest thing. Why do you attach your minds to the transitory things in this world? Why do you not spend your time in meditation and in repeating the Lord's name? Attach yourself to God. Be brave and always walk on. There will be many mountains to cross, but do not stop until the goal is reached. Be strong and never feel disheartened.

5 JANUARY 1983

Everybody must come in time to darshan, kirtan and aarati. Manage your time effectively, so you are prompt. When you go back to the West, do aarati and kirtan at proper times. Everybody can do aarati and puja at this home. I dislike idleness and gossiping. You have taken this birth on Earth to work. Work hard! After death, what will you show to God? Not only here, but wherever you are, work hard! Shri Babaji to the Italians:

Don't use intoxicating drugs, but learn from Gora Devi's devotion and purity. Why do you travel here so far from your home, yet to lose yourself in drugs? It is strictly forbidden to use drugs and you must leave if you do so, because there is no progress; you remain the same.

Once upon a time Rome was the highest city of all; then it degenerated. Don't repeat history in Herakhan.

You must learn not to use drugs, so you can teach others not to use them.

During Evening Darshan:

In the evening during darshan, Shree Babaji told that soon in America people will get a form of disease which they will be unable to stop and which will cause death. Some will vomit themselves to death, still others will bleed to death from cuts which will not stop bleeding. There is no sure prevention and there will be no cure. He recommends fasting as the best means of avoidance.

These diseases will spread from America to all parts of the world.

Later that evening Shree Babaji called another devotee and told him that he should tell people in the area around Haldwani and elsewhere in India, that soon there would be an epidemic of deadly malaria, impossible to cure. To prevent this malaria, people should take anti malaria pills every week. He directed that this announcement should be published in the Haldwani newspapers and also in the USA.

9 JANUARY 1983

All of you must learn to be disciplined. Be alert 24 hours a day. If you are not disciplined and idle your time away, there is no point of coming to Herakhan. All must vow to always work and serve, think good and do good keep-good thoughts in your mind.

According to my plan, liberation will come only to those who practise karma yoga. There have been many yogas-bhakti yoga, gyaha yoga, prem yoga-but in this time only karma yoga can benefit you.

I instruct you to always spend your time industriously. Whatever work you do, do it in the name of Babaji. Whatever money comes to you, spend it for good purposes. I say all this in the service of humanity. To work, think good, and dedicate your life to Humanity is the best. The only necessity of this Yoga is karma yoga through service. Everybody must spread this message. More and more people must be acquainted with these thoughts and teachings. Each corner of the world must awaken to these words. It is My desire that there be harmony in the universe. My plan is one of love-one where the lion and the goat can drink from the same well.

I dislike idleness. Hard work will benefit you. When the time comes, you must be prepared to do any kind of work that comes to you.

BHOLE BABA KI JAI JAI MAHAMAYA KI

16 JANUARY 1983

Everyday you are given teachings.

A General Body Meeting will be held on February 25. More and more people must take part in these meetings.

All of you who are here, from all countries, must vow to spread the message of Babaji. Help those who are deceived and show them the path of righteousness. Societies today have degenerated greatly; you must help elevate them. Inspire them that work is the highest thing.

Walk on with courage and bravery. Go on working to improve humankind and establish the Path of Truth. I want a creation full of brave and courageous people and you should make the next generation brave and courageous too. I am against non-violence that makes a human being a coward. Fight for truth! To face life, you must have great courage every day.

Many times I have told you that by karma alone will I give you liberation. A change in the world is coming soon. Change is nothing new; it is the law of nature. The rhythm is that those who are born must die and those who die must be born. We must face the coming destruction in the world with courage. I want you to be very alert and careful. Be ready to face the world.

Think good - Be good - Do good. Bhole Baba Ki Jai

22 JANUARY 1983

After the evening aarati, while bhajans were being sung, Babaji encouraged people to dance around the temple. About 25 people danced for ten or fifteen minutes. Later, Babaji said:

Just as all of you danced around the temple, so in your city, or village, or country you must dance around the temple, or the murti, or a photograph of Baba, in groups, chanting kirtan and Om Namaha Shivaya loudly at least once a month. Throughout the world, Om Namaha Shivaya must be spread in this manner. No place must be without the name of Om Namaha Shivaya; on every street, in every house it must be spread.

This Om Namaha Shivaya is like nectar; feed everyone with this nectar. Shri Mahaprabhuji wishes that all words would disappear from this world, except for three- Om Namaha Shivaya. This is the original mantra. When Primordial Energy first appeared, the first mantra that She uttered from Her holy mouth was Om Namaha Shivaya.

Shri Mahaprabhuji wants to transform men, who are like devils these days, into Gods. Shri Mahaprabhuji never hates any caste or creed; He only hates inhumanity. One can follow any religion, one can follow any religion, one can follow any practice or path, but one must be humane. At present, it is a most necessary thing for the world to become human, this is the first step. Shri Mahaprabhuji wants cooperation from you; by following His teachings, you must try to become humane. Every human being must promise with a true heart that he will cooperate with Babaji, He shall help him to be humane. This is the only service Shri Mahaprabhuji demands of you.

Remove unrighteousness from the world. Even if you have to shed blood like a river, you must be prepared to do any act to protect righteousness on the earth. Righteousness can only be saved by the shedding of blood. This is revolution, and have you ever heard of a revolution without blood being shed? That is why you must become alert and become the true lover of your religion.

Everyone must consider his country as heaven and remove "I" and "my" from his mind. Put all your effort into service of country and humanity. Because great calamities are going to come in this world in the future, Shri Mahaprabhuji has warned you many times and told you to become alert and careful.

Jai Mahamaya Ki

The message that is given here must be spread like electricity throughout the world. Do it quickly!

We must create many institutions; we must spread the message by making committees. The message must be published in all newspapers throughout the world.

Jai Maha Maya Ki! Always Jai Maha Maya Ki (which means Honor or Glory to the Great Primordial, Creative Energy) must be your slogan, your greeting to each other.

24 JANUARY 1983

Any day when aarati is being done by people from a certain country, all the men and women of that country should participate in it. When a German does aarati, all Germans must take part in it; when Swiss people do aarati, all the Swiss should take part in it. Likewise with the French, Italians, Americans, etc.

This is a new universal law, given for Herakhan Vishwa Mahadham, since the new code for the universal kingdom will start from Herakhan. This law will be universal law. This is not for one country but for all the world.

"Dhara 44"-Code No. 44-is the name of this law, and a person can be punished if he breaks this law. All of you must obey the law. This is a universal law. The world is going to be a universal kingdom ; there will be one king, one law in the whole universe.

The old laws and regulations are not applicable now. They have lost their validity; due to corruption in the law ministries, the old law is no law now. The new law is like a morphine injection-it has immediate effect.

Do not take the law into your hands. Be controlled by the law; do not control the laws by taking them into your own hands.

Shirdi Maulana is Speaking all this. You may know about Shirdi Maulana. He lived during the Muslim rule in India. He is now making the rounds everywhere, going here and there to help humanity. Now he is here, speaking through Shri Mahaprabhuji. He says that "I" and "my" have put a veil over the hearts of people. People have become self-centred and selfish. How can there be peace when the mind is full of ego and selfishness? Who is big enough in this world now to sacrifice himself for universal service and love? People have degenerated to the point that they are prepared to kill or harm others for their own selfish works or motives.

All of you must try to destroy the corrupted law and establish true law in the world.

29 JANUARY 1983

God resides only in cleanliness. If there is impurity in you, how can God reside in your heart? So to reach God, look to cleanliness.

In life, everything is action, kriya, eating, drinking, coming and going. Everything is full of activity, every moment is full of action. It is the duty of every one to be active, to be lazy is like making yourself dirty. Those who live in Haidakhan must be very clean, take baths, have only clean thoughts.

2 FEBRUARY 1983

During His Evening Bath

JAI MAHAMAYA KI JAI

All my body is meant to dry up one day, so don't care to put too much oil on it. This body is here only to serve people.

All the living beings, animals, flowers, plants, and stones have been given a form by God and this body has been given by God to perform a duty in this world. So even my own body has come only to perform a duty and to serve all human and living beings.

But when human beings come in this world, they forget their duty and they fall into the attachment of maya and into the concepts of "me" and "mine" and so they forget God.

2 FEBRUARY 1983

JAI MAHAMAYA KI JAI

Babaji is the Compassionate One.

Babaji will fulfill all your desires if you come to him.

In return He asks you to be human. You must work. You should do your work, whatever it may be, to the best of your ability.

You must be alert in every moment. You must be true to your country.

This is the time for action as is explained in the Bhagavad Gita. All religions and castes are acceptable.

21 MARCH 1983

I want to congratulate the people who stayed behind here (when Shri Babaji went to Vrindaban and Bombay) for decorating the kirtan-hall with beauty and dignity. I congratulate you, because you have tried to bring heaven to this earth. The cleanliness, beauty and dignity you have created demands appreciation. Now it is everyone's duty to maintain them.

Every human being should understand his duty. A real human being is he who does his work/duty equally, whether I am present or not. You have brought such artistic beauty to this hall that the atmosphere around, nature, and even the gods are pleased with you; this hall has become a home for divine beings.

As I have told you before, the thing needed in this Age is work (karma). In every Age people have reached salvation through different types of action and sadhana (spiritual discipline), but in this Age one can reach liberation only through hard work. I want real, practical human beings and only he is a true human being who lives in accordance with this Age. We need not consider religion or caste, but look only to hard work. Arjuna, for example, was renowned as a karma yogi, and even King Janaka was famous for being a karma yogi. You should progress on this road of karma-yoga in the same way. The troubles that beset this Age can be resolved through karma-yoga. You should become pioneers of this Age and search for truth. You have to become adventurous and awaken truth within you. This is real yoga.

At present, world crises are increasing - this we have to remedy. As I have told you before, you all should become brave, steadfast and truthful in action. Become of good character and conduct. Regardless of which country you come from, you will have to act your part for the great changes of this Great Revolution. You must not spend your time wastefully but utilize it by doing the right kind of work.

You may ask 'How will Babaji bring about this Revolution?' I have repeatedly told you that when the right time comes, all will be revealed. You may wonder also how one can counteract all the powerful weaponry and atom bombs that have been produced. The fact is that such weapons already existed in the days of Rama; even in the Dvapara Yuga they existed. Present day science has not yet reached the stage of development of those times. Then they had rain-producing weapons so that you could take a bath in the water they produced. Present day science is far from reaching this stage. When the right time comes, all will be revealed on its own.

Just as in the days of the Mahabharata the Pandavas had to come into possession of powers, in the same way, when the time comes, all will come about by itself. This revolution will set fire to the whole world. Only those will live who have adventure in their hearts, those who are wed to truth. You should all go forward with courage and adventure. This is why you should proceed with your duty always foremost in your mind. Idleness is death for a human being. Due to man's idleness, the world has reached a point of total despair. To do karma is the true path and in that only is there happiness and peace.

(Babaji, commenting on the way kirtan is conducted, went on to say kirtan should really be sung and played.)

Kirtan should come to you naturally and through your soul. When you sing, you and those who listen to the kirtan should enjoy it. It should be sung in harmony, with a slow rhythm. Put your souls into it and it will flow. Don't sing kirtan as though you are competing with one another or fighting with each other, beating very fast rhythms - the melody should flow in all its sweetness.

22 MARCH 1983

Every day you hear something and today I will repeat what I have said before. A great Revolution is coming. Wherever you live, be prepared to face the Revolution. Whatever occupation you might have, take part in the Revolution. Whether one works in the police department or in the military, everyone will take part. Everyone must spread the message of Babaji, wherever he lives. Only that person can take part who is prepared to face death, who is prepared to die at any moment. Only the man who is daring and has courage, who is prepared to die for the sake of righteousness, is fit to face the Revolution.

The whole universe will be involved in this Mahakranti (Great Revolution). It is not limited to India. I am warning everyone in the universe. In whatever profession a person may belong, whatever may be his activity, he must take part in this Revolution. This will be the greatest Revolution in the history of the world - so all of you must be alert and make others alert.

Awake! Arise! Everybody must make a firm resolve. Men and women from all over the world must take part. In other Yugas, only men took part in revolutions and wars but now women are coming forward, so it is necessary for them, too, to take part in this Revolution. Everybody must make contacts on all sides of the world and unite together.

27 MARCH 1983

During Evening Darshan

At this moment in Haidakhan the majority of you are Germans and it is your special duty to look after the activities, the management and discipline of the ashram. It is your duty to inform those who come, of what the ashram programme is and to enforce discipline. It is the duty of Har Govind Baba to give daily satsang of at least one or two hours to his brothers and sisters in the pyramid or in the garden. This is a must. The time is best in the morning, before work. If you teach them in the early morning, their minds are fresh and the prevailing atmosphere is clear. Many times before I have told you that you must be every alert and observe the rules of the ashram. The life of the ashram must be guided by alertness and attention. I do not like careless people. It is your duty to bring alertness, promptness and attentiveness into your lives.

I want to root out the seed of laziness in the world. Everyone should be hard working. Those of you who are old must come to kirtan. Everyone must take part in the ashram activities according to their capacities. Firstly I give you karma yoga. You can advance only through karma yoga, by karma yoga you may benefit others also. A lazy person cannot do karma and is like a dead person. Give great importance to karma yoga and proceed. When laziness is rooted out from this world, all the world's sorrows and troubles will come to an end. Only hard work can make person powerful and energetic. Karma is of first and foremost importance in your life. Many times I have told you that only through karma yoga will I give you liberation. In this age it is the only type of yoga one can do, it is the only way to realization and progress.

You must awake others and make them arise and be alert. If you are always alert, this will be of great benefit to you. You will achieve happiness and you will be saved from the calamities which are coming very soon.

JAI MAHAMAYA KI JAI

7 APRIL 1983

The Guru Granth Sahib, the sacred scripture of the Sikh religion, will be recited continuously for three days, beginning tomorrow. This recitation will take place for the sake of world peace and everyone present here will be fortunate to participate in this event. This scripture contains the divine words of Guru Nanak (15th century) who founded the Sikh religion in the Punjab. During these three days, everyone going to the reading should cover his or her head as a mark of respect for the customs of this religion. Go and listen to the recitation with great love and faith. It has been arranged by devotees from Bombay for the promotion of world peace. The recitation will begin tomorrow at 9:00 a.m. The permanent residents of Hairakhan will look after the program and the guests should do so with respect. This is the second year at Hairakhan for this great event and all should consider themselves fortunate to be here.

In the world today fire is bursting out on one side, while nectar flows on the other. You must decide if you choose fire or nectar. While flames of the fire are spreading, it is up to us to save ourselves and others. We must be alert. At this moment, people are jumping into the fire because of their ignorance. We must save these people, and we can do so only if we have great courage. We should give this courage to others as nothing can be done without it. Courage is the most important thing. Shri Mahaprabhuji has told you many times to wake up. Wake up yourselves and others. Control your mind and have firm determination. Whoever comes here must vow

to save himself and the world. Wherever you go, be prepared to save people. Be firm like a rock, deep and serious like the sea. Think of the earth as a mother. This is one earth. Don't be divided by thinking of yourselves as belonging to different countries. We belong to one earth. Proceed with this in mind. Look to the future with a vision of good deeds for the whole world, not just one country. Have great courage and patience - and be not afraid of water, fire or great storms - face them bravely.

Shri Mahaprabhuji reveals the truth of a mystery to you - the Revolution will occur simultaneously everywhere in the world. Countries which believe that they can save themselves through the newly invented weapons can forget this thought, for they will not be able to do so. Everyone knows of the present day events taking place in Iran. No- one had ever heard of the name of Khomeini before and suddenly he captured everything he wanted.

Shri Mahaprabhuji is preparing for the Great Revolution. When and where it will start is not to be disclosed now. When the time comes you all will know. In the Treta Yuga, the revolution (Kranti) started from Lanka and until it happened, no-one, not even Rama, knew that it would start from there. In the Dvapara Yuga, at the time of Lord Krishna, no-one know where the revolution would start. When it began at Kurukshetra, people from all over the world collected there for the beginning of a world war. Mahaprabhuji will show His lila to the world in the same way. As you know, the flames of revolution are presently spreading in the world. There is no power which can stop the fire and reduce the heat. Super powers like Russia and America will not be able to face the fire even with their new weapons. Nothing that they have invented will be of any use. Everything can be destroyed. All must be prepared for this revolution - especially those who are here. Whether old or young, private or public, those working or not - all must take part. It is devotion, love and yoga for you to save the world and join in the revolution. For those who are true devotees of Babaji, the flames of fire will become cool. Face the fire and it will turn to ice. This requires control of mind and a firm determination. Everyone must consider himself a soldier and be active. Everyone will have to face the fire.

8 APRIL 1983

All must be aware that the recitation of the Guru Granth Sahib is taking place. This recitation has been organized by Sri Sardarji of Bombay for the benefit of the whole world. This reading describes the path of righteousness and it will inspire you with great courage. Its message is one of determination and unity.

To lead a true life, one must have firm determination and be aware that there is one Soul present in all people. The Guru Granth Sahib for centuries has inspired the Sikh community with courage and determination; it is even in the blood of their small children. There are many instances in Sikh history of heroism and martyrdom; the two small boys of Guru Govind Singh were buried alive. They had the high spirit and determination to follow the path of righteousness. They preferred to give up their lives rather than abandon their religion.

Sikhs throughout history have suffered atrocities for the sake of their religion; they have shed their blood in great numbers; they have preferred death to untruth. Such a time has come now. Everyone must have the same faith in truth and righteousness.

10 APRIL 1983

Shri Mahaprabhuji wishes to thank all those of the Sikh community who organized and participated in reading the Guru Granth Sahib. The words of this scripture are the same as Shri Mahaprabhuji uses in His speeches as they are meant to inspire faith and determination. All great saints and spiritual leaders who have appeared in the world have come to establish world peace and unity for humanity as a whole.

Jealousy and hatred are the two causes by which humanity is ruined. In your lives these two vices should have no place.

I want to weed out the prevailing non-violence in the world. It is a cause of apathy and idleness. This non-violence has cooled the blood of men so that it has become like cold water. This attitude of non-violence produces a lack of discrimination between good and evil. Everyone should lead a life of bravery and courage. A man without courage is like a dead man. Life without courage is no life.

At present, many atrocities are being committed in the world. Human beings are treated like animals. No-one has had the courage to stand up against these atrocities but everyone should be brave and resist them. Every one must be of firm determination and stick to what he believes to be true. Be constant in your actions and dutiful.

Lethargy must have no place in your lives. Lethargy is the weakest trait in man. The day mankind becomes hard-working, the world will lack nothing. Man must live and improve through work. Work is the highest form of worship. You can evolve in all ways by doing work.

10 APRIL 1983

Shastriji speaks:

By the grace of Shri Mahaprabhuji, the reading of the Guru Granth Sahib has been completed today without difficulty. The Lord says: "The saint always resides in My heart and I am in the heart of the saint. The saint knows Me alone, thinks of Me alone and I know him alone who is truly devoted to Me."

Guru Nanak, who appeared in Punjab, was such a saint. Whatever he did, he did for the sake of humanity. The actions of great saints like Guru Nanak are aimed exclusively at the welfare of mankind as a whole - to lead men to the true goal of life.

The words of the saints contain a vibration and energy that have the power to remove vice and evil from the world. The value of their words is that they inspire. This is why the scriptures say that their words have to be read again and again and to be meditated upon and be put into practice. The reading of the Guru Granth Sahib, by the grace of Shri Mahaprabhuji, was like a flow of nectar.

Shri Mahaprabhuji is very pleased. He gives you blessings for the future and blesses your families so that all who took part in this sacred function may prosper. Those who conceived of the idea and helped to realize it will be blessed wherever they go. The doors of Vishwa Mahadham are always open to great devotees of God whose hearts are full of love, to bring the vibration of their devotion here. 'Shishya' in Hindi means 'disciple' - a Sanskrit word - so that the 'Sikhs', so to speak, are all disciples of God. The few Sikhs assembled here are part of a large community and wherever they go they take with them the blessings and inspiration to spread the message in their community.

"Oh God, let you alone remain, let me be totally annihilated. You alone are; I have no existence. As long as I am alive let me give this life to you and let 'I' be destroyed."

Evening

Shastriji speaks on the occasion of the reading of the Guru Granth Sahib When the Supreme manifests and comes on to the stage of life, the ships of all world religions come to sail the seas. Books written some thousand years ago make it clear that God comes for the benefit of devotees of different religious paths and by doing so He unites the different paths - making them one. What good fortune we have to witness the divine lila with our own eyes!

Shri Babaji made temples for the worshippers of different Gods - for Lord Vishnu, Lord Brahma, Surya Narayana (the Sun-God), Guru Gorakhnath, Lord Kartikeya (he who has six heads, eldest son of Lord Shiva), Dattatreya Bhagwan (Lord Brahma, Vishnu and Shiva together), the Mother Goddess with Ganesh and Bhairava, Lord Hanuman, Sita and Rama, etc. All Gods have been accorded respect by being installed here; they have the absolute right of being worshipped. At the same time, they are symbols of all religions.

Shri Babaji has organized the recitation of the Guru Granth Sahib at this sacred place. He thereby sets an example for all to follow. When such studies are undertaken in sacred places it charges them with divine energy and, like the flow of the waters of the river Ganga, benefits the whole world. Whenever recitations of such sacred scriptures take place, the vibrations go throughout the three worlds; bhu - earth, bhuvah - atmosphere, svaha - sky. But the recitation of the Guru Granth Sahib last year and this year, here at Vishwa Mahadham, will reach the highest heaven - sachkhand - the seventh heaven, which is the heaven of Absolute Truth.

Rishis and maharishis have always recited and studied great scriptures in holy places, because they wanted the sound waves to reach through the seven heavens: bhu- bhuvah-svaha-maha-jana-tapa-sat - earth-atmosphere-heaven-great heaven-heaven of knowledge-heaven of penance-heaven of Truth. To direct sound through the seven heavens, it is necessary to have these studies taken up at such sacred sites.

Guru Nanak came very near Hairakhan to do tapasya (to practice austerities). When he was on his way to Rita Sahib (a sacred site in the Himalayas), he passed through Hairakhan and the tenth Guru (of the Sikh religion), Govind Singh, created a water source and lake with his arrow at Hemkund (Golden Lake) 10 km northeast of Hairakhan. The Lake is still there and is a sacred site. Guru Harkrishan created Harishkund. When he returned to Nanakbata, Guru Nanak passed again through Hairakhan. It has been said that wherever he made footprints he left marks, enriching the sites with sacred vibrations.

Hairakhan's beauty stems from the presence of Mt. Kailash, where Lord Shiva did penance, and from Mt. Siddheswar, where Lord Vishnu did penance. Nearby is another spiritual center, Hemkund, where Guru Nanak did penance. For this reason, this area is particularly sacred. Whatever saints like Guru Nanak have preached is given practical application by Shri Babaji, in that He makes people execute His teachings. Shri Babaji shows us the practical side of the teachings of great saints like Guru Nanak, who did not preach a particular religion or cult. He gave teachings of spiritual perfection, valid for all mankind. To follow these teachings is to realize good for all humanity and the unity of all humanity and the unity of the individual soul with the universal Soul. It is for this reason that Shri Babaji is spreading His teaching, so that we may understand unity. What great sacrifice

Guru Nanak made for the sake of humanity! Now his disciples offer their lives for the sake of religion, unity and truth. Shri Babaji now spreads these teachings throughout the world; whatever Guru Nanak taught, Babaji will apply in action. It is only after many years that the practical form of these teachings evolves. When preached by the saints, the words are read, meditated on and only much later are they given practical application. The time has come for the teachings of Guru Nanak to be put into practice.

We calculate time with our limited minds; either after or before the birth of Christ. And in India we calculate time according to the reign of some of our great emperors of ancient times, like Vikram Sambat or Shak Sambat. In reality, however, time cannot be measured. Time is infinite, eternal. Mahakal, the Lord of Time, is, for Shri Babaji, like the twinkling of an eye - all these millions and billions of years.

Today technological progress has created atomic weapons which can destroy the world in seconds. But our great saints of the past, with their teachings and scriptures, have created an antidote to these destructive weapons. Only after the Lord had created nectar did he create poison. Therefore, all of you have to be very alert. The mere sound of these scriptures purifies, even without an understanding of their meaning. So listen attentively and be benefited by them. They are not ordinary words and sentences written by anybody. Their sounds and words are like mantras, full of spiritual power. It is said that intellectuals write in order to explain, but such explanation comes afterwards; first come the words of highly realized souls, then an explanation may be given. What a saint says or writes is not to be measured with the intellect. The words of the saint - not the explanation given afterwards - provide the measure for right and wrong.

Shri Babaji has come to save righteousness and to remove unrighteousness. He is the greatest and highest power but He has come with a human body to do that which no other power but He could undertake. Staying in Hairakhan, Shri Babaji manifests Himself throughout the whole world.

People from around the world come every year to have His Darshan. Even without coming here, many experience Shri Babaji in their own countries. But when they come here, Babaji gives them Darshan, actual experience. When they come here, they realize He is the same. This is Babaji's greatness - without leaving this country, He manifests His powers throughout the world. Over twenty countries were represented here to celebrate a spectacular Christmas last year, touching the hearts of all.

There are many places in India where ashrams of Shri Babaji have been established. India in this way is very fortunate, to be the place of divine incarnations like Rama and Krishna, where many saints have appeared, like Guru Nanak, of highest spiritual development. Shri Babaji, moreover, is blessing people in India individually by going from house to house.

(Then followed an invitation for breakfast for the next day, the end of the reading of the Guru Granth Sahib and the injunction to render service during the Bhandara, to show good comportment as resident volunteers of Shri Babaji.)

Babaji concluded:

All of you are soldiers of Hairakhan. Do your duty with faith and devotion. You must remove hatred and jealousy from your hearts to be of real service. All of you must climb the mountain of victory.

11 APRIL 1983

Shri Mahaprabhuji will not spread the word of this revolution by radio, newspapers, television or even the written word. He will do it simultaneously everywhere through His inner power. Before, many 'lions' took birth for the sake of revolution - Subhash Chandra Bose, Mussolini, Hitler, Stalin, and in the USA, Abraham Lincoln.* These men were not able to complete their wishes so they have returned to fulfill their tasks. There were certain shortcomings before - before the people did not have a slogan of Power. Now I have given the slogan 'JAI MAHAMAYA KI JAI' - 'Victory to the Supreme Mother, to the Divine Energy!'

There will be people now with shaven heads and Sikhs with turbans and beards on the world flag. Yogis and yoginis will be there. They will all come on to the world map. The fact is that the problem is universal. I have repeated this many times. It was Shirdi Maulana (Sai Baba of Shirdi in his incarnation as a Muslim emperor 800 years ago) who said that yogis and yoginis will take part in this revolution. The great energies, both known and unknown, which may be activated at any moment will be utilized in this revolution.

The fact is, I have spoken before. I will have to speak again. The fact is, I have to awaken the world from its sleep. The fact is that I, too, will have to come forward for this revolution. The fact is, to do duty, to be dutiful, is what I call Mahayoga. The fact is that at this moment our duty is to help the helpless. The fact is the future kingdom will have no party - it will be a movement and this movement will be worldwide.

The fact is, the person before you with the bulging eyes like the back of a seashell is the one who will come before you time and again. The fact is that he is the head of this movement. The fact is he will go to Assam, Punjab, Iran, Iraq - wherever there is revolution, there he will go. It is difficult to find a more serious man. The fact is that I have said it is a fact.

Baba Hargovind will remain here. He will be in charge of things whenever I go out. He will be working here because I found him to be a true yogi; he has the responsibility for yoga. Lok Nath will have to look after State affairs - he has such beautiful eyes. The fact is that our movement will have its seat at the center of the world. The fact is that today I conclude my speech here.
JAI MAHAMAYA KI JAI!

The fact is you have to be alert twenty-four hours a day. The fact is, I have told you all this before, what you should do, what you should not do. When Mahaprabhuji participates in this work, all means will come to Him; all weapons and armament will automatically be available. Mahaprabhuji does not have to build factories for that, all means will be available at the right time. The fact is, wise people will come to Mahaprabhuji by themselves and those who are not wise will have to be brought here. The fact is - JAI MAHAMAYA KI JAI!

(In Hindi, the repetition of "the fact is" - "kai hai ki" - came from the lips of Shri Mahaprabhuji like a mantra. It has been left in the translation, even though the vibrational effect in English is less than in Hindi.)

* Shri Babaji sometimes cites active leaders, including Hitler, Mussolini, Lenin, as examples of men of singlemindedness and intensity of purpose, even though motivated by negative aims. He notes that 'their karma yoga shook the world.'

In this context, Tulsidas said:

"As a man driven by passion can think only of possessing women, as a man of avarice

is compelled to act for gain of wealth, in like manner the devotee of God should be focused on dedication and service to God."

In Christian religious tradition, Saul is such an example. Through his spiritual conversion, he became Paul on the road to Damascus. With the same intensity as he previously had persecuted Christians, he then sought to convert others to Christianity. The same energy was harnessed to a spiritual aim.

12 APRIL 1983

All of you must bring alertness into your lives. The revolutionary spirit which I want to inspire in the hearts of all of you is for the peace of the world. This revolution takes place for the sake of world peace. This is my sole aim and main task. In the Mahabharata, at the time of Lord Krishna, the same path was followed - as it was at the time of Lord Rama. When unrighteousness prevails in the world this is the only path possible.

All of you must become soldiers. As you see the soldiers (of the Sikh religion) standing here before you, so you too will become soldiers of Hairakhan. You may think that so few people can do nothing but there are millions of people in the world waiting on an impulse from Babaji - they are prepared to offer up their lives. Going beyond fear of death, proceeding with courage, people will give their lives for this revolution. Even the Lord of Death (Yam Raj) is prepared to take part in this revolution. This being so, how can there be doubt about anyone else? You must make every effort to become alert. Wherever you live, there you must be alert. Babaji will give His Blessings from here but you must be very alert everywhere.

15 APRIL 1983

JAI MAHAMAYA KI JAI!

You should sing devotional music in a way that stirs the soul - it should evoke deep feelings. It should not be a race of rhythm or competition of voices. You should sing with love. Do not sing like you are taking part in a theatrical performance. Only those who know the song should sing. When you make music, it should touch the heart so that it leaves a memory on the mind. Whatever you do should have strength in it.

20 APRIL 1983

At the annual meeting of Haidakhandi Samaj, Shri Shastriji read a speech which Babaji had dictated to him earlier in the day:

"Duties of the Haidakhandi Samaj"

It gives me great pleasure to be addressing the half-yearly meeting of the HAIDAKHANDI SAMAJ. The main purpose of the Samaj is service to humanity. Service to humanity is the best service to God. Our motto is 'work is worship.' It is our duty, as those working within the Samaj, to show the path to those who are in need of help, inspiring them to overcome lethargy which is the cause for inaction in the world, inspiring them to work. Therefore, I first want to root out lethargy in you. In this Yuga, the only way to obtain siddhis, to become really strong, is Karma - action.

Goswami Tulsidas said in his 'Ram Charita Manas': "The Lord Himself created the law of karma - as you sow, so you shall reap." Keeping this basic principle in mind,

our main duty should be to spread the message of karma in the world, we ourselves giving an example to all, by practicing it.

Whenever true progress was made in the world, it was due to the hardworking individuals of a particular Age. Today it is our task to go everywhere, from house to house, spreading righteousness, guiding everyone on the path of karma , giving them practical instructions, being ourselves examples. By karma alone can we become prosperous. We have to work to our last breath.

Shastriji's comments to the General Meeting:

The HAIDAKHANDI SAMAJ is, in fact, an ancient association but the continuity of its work was broken with time. With His reappearance, Sri Mahaprabhuji has graced us with re-establishing the Samaj. Not long ago Hairakhan was an inaccessible place but with transport and other facilities now being provided, it has become easy for everyone to come here. Now there is even provision here to feed the hungry, to give the thirsty to drink, to clothe the poor.

We all are eye witnesses to the fact that Sri Mahaprabhuji Himself is the greatest karma yogi. He is continuously present among us, in an effort to teach us karma yoga, directing all the work tirelessly from morning to night without any need or desire for Himself. The astonishing fact of Sri Mahaprabhuji's way of working is that we see people from all parts of the world coming here. We also know that His message is rapidly spreading everywhere - thousands are coming for His Darshan. Other holy men go abroad to spread their teachings - still their work stagnates. Sri Mahaprabhuji has never left this divine center to go to foreign countries, yet the glory of the name of Haidakhandi is spreading to the four corners of the world. The aim of this meeting is to make us realize fully that, like children of the same father, we must help one another, overcoming jealousy and hatred, and spreading good will among men.

The real miracle of Sri Babaji is that he has transformed this place through His spiritual power alone - there was nothing, now there is a garden in which the river of plenty is flowing. Without external help, solely through the power of His perfect Being, many temples and ashrams have been built in several Indian states, as well as abroad. Within the thirteen years since His appearance, people from all walks of life have come here and received in plenty.

Although the constitution of this association, the Haidakhandi Samaj, and its legal registration took place only three years ago, Babaji's impact on every sphere of life, His message of Truth, Simplicity and Love make it evident that it will not be long before Sri Mahaprabhuji will remove pain and poverty in the world and awaken the consciousness of universal brotherhood, spreading true peace and joy. Shri Mahaprabhuji will transform the world. Having pledged Himself to serve humanity, Sri Mahaprabhuji is immersed in activity. He will unite mankind through the force of His spiritual power and show it a new direction for progress.

To spread education, true knowledge is essential - from it will grow universal love and brotherhood. This is how a new generation of brave and enthusiastic people will grow up, once the helpless have been given support. In Hairakhan, provision has been made for medical service and poor scholars are receiving free education from the ashram funds. Likewise, you should look to the areas of your countries where people are poverty stricken and helpless and then do all you can to raise their standard of living, teaching them cleanliness and high morals. To serve the needy truly and from the heart is true service to God. Sri Babaji has now totally committed Himself to liberate the world.

Dear devotees of Babaji - you who are obeying His orders to the letter, be determined to proceed on this divine path. Awake! Arise! Go and learn from the wise! Become brave karma-yogis of the Lord! So as not to be caught in the whirlpool of the world, where there is little hope of escape, become part of this nucleus of a universal family, the HAIDAKHANDI SAMAJ! Give support to its message and activities!

JAI MAHAMAYA KI JAI!

24 MAY 1983

Our main aim is that there be universal peace. How can we obtain this peace? We can achieve this by eliminating all differences between caste and creed, by eliminating all inhumanity among us. There must be only one caste and one creed-humanity. Become human.

The only religion is humanity. There must be tolerance and forgiveness. It is our duty to set an example for this. Everyone must be human. Everyone must be courageous, facing the difficulties of life with bravery. Save yourselves and others from the adharma (lawlessness) of the world. Cowardly people are like dead people. I want to create a world of brave people who face life as it comes. We want to save the victims of atrocities and bring them out of their troubles. We want to bring peace not only to one country but to the whole world-our aim is universal peace.

All of you must take a vow to go from house to house, from place to place, and help the needy. You have to root out the inaction which is destroying man. Inaction and idleness are the chief obstacles to man's progress. If you learn right action, you can do anything. Action is mahayoga-the highest yoga. you should progress through action. The political leaders of all countries preach inaction through strikes. You should have nothing to do with this. Man is meant for action.

JAI MAHAMAYA KI JAI!

30 JUNE 1983

I want to tell you that there is no reason for anxiety or dejection. You were born to do karma (work, action), so continue to do karma. Karma is the highest thing in this world. Only through karma can man advance. Lazy, idle people are always in trouble. Karma is supreme.

All of you have worked very hard here. I want to thank you for it. The gardens you have made here with such perseverance are unique. In future times this will be remembered as a historical fact. It is nothing to accomplish such work in places like Delhi or Calcutta, but to create such gardens above the river by conquering nature is a great thing. So you must all continue to make progress.

To others, too, you should give teachings of karma. In this age, you can attain liberation only through karma. In other ages, people have practised many different forms of yoga and sadhana [religious practices], but in this age no other sadhana than karma yoga will give you liberation. Go on working while repeating God's name. You cannot comprehend the high value of karma while repeating God's name.

Man's mind is very fast, faster than the wind. By doing work while repeating God's name, your mind becomes cleansed of thoughts and useless, negative thoughts cannot

enter it. To uplift man, for the progress of the whole of humanity, karma is a great sadhana. All of you, therefore, continue to make progress through karma.

5 JULY 1983

Now, you brave ones, be ready for work! Be brave. I like brave people . I dislike cowards. Now people with courage are needed. It is better to die, facing life with courage. To live as a coward is shameful - it is better that the coward drown himself in the river. There is no place for cowards.

Awake! Arise! Be brave! Work and die for the sake of Rama (God). Go, all of you, to work down in the Company Garden. All of you are brave people.

11 JULY 1983

You westerners are all hardworking and sincere. I want to thank you for the way you have been working selflessly, setting an example of an ideal to follow for the whole world. Karma yoga is the highest form of yoga (mahayoga) and any advancement is done through karma alone. Proceed by doing karma. You have worked in a way that has brought together heaven and earth.

Scientific progress, too, has been achieved through karma alone, through hard work. Those who have invented the atom and hydrogen bombs also have worked selflessly, not caring about food, sleep, cold, or heat. Only in this way could they achieve their aims. They, too, were doing yoga.

By karma yoga great things can be achieved. You can bring heaven down to earth. You can change the whole of creation.

You may think that, by just sitting here, how can I change the world? (i.e. how I bring about a change of heart in men?) But I tell you that half of my work I have done by sitting here.

Go on progressing through karma.

JAI MAHAMAYA KI

(Babaji continued by commenting on the way devotees say the 'Jaikaras')

When you say 'JAI', say it so the earth trembles and the heavens fall down! Don't say it like dead people, reluctantly and without life. You have time to be without life when you are dead. Say the 'jaikara' with love and enthusiasm so that people realize someone is alive around here. While you are alive, be lively, enthusiastic, courageous.

17 JULY 1983

Today is the auspicious day of HARELA* and I want to say to all of you 'Happy Harela'. This applies also to everyone in this country and to people from all other countries, to those present and to those not actually present here. I extend my blessings on this sacred occasion to every devotee of the Lord, wherever he may be. Those physically distant from here should not think they are far away - they are equally close to Me.

Though they may be thousands of miles away, they can still reach me by practicing devotion.

What everyone should do is spread my message of Karma Yoga throughout the world. I want karma yoga. Karma Yoga has stagnated. I want it to come to the forefront.
JAI MAHAMAYA KI JAI

*Harela is celebrated annually at the official beginning of the rainy season which coincides with Guru Purnima. The word derives from 'hara' - green. Greenness is synonymous with fertility, abundance, wealth. Ten days prior to the festival five different types of grain are sown in a special container and dedicated to the particular household or local deity.

The festival marks the beginning of a new harvest season (the rice season starts). The festival is celebrated in various ways throughout India as a kind of harvest - thanksgiving. In the Kumaon region, it is also a celebration of the marriage of Shiva and Parvati. The priest cuts the ten-day-old grain. The new grain is first offered to the deity and then put on everyone's head as a gesture of blessing. Special pujas are offered and special dishes are prepared. Traditionally, the women of the household receive presents from their parents.

19 JULY 1983

During Evening Darshan

Shri Babaji commented about the fact that Munirajji has been invited to take part in a spiritual conference in Austria in September, at which the Dalai Lama will be present.

Shri Babaji said:

Munirajji may attend. The Dalai Lama is not greater than Munirajji, Munirajji is the incarnation of Guru Dattatreya*.

He is a Yogi and spiritually very high. Spread this news everywhere among the people.

Soon a world meeting is going to take place here. The date has not been fixed yet, but it will come soon.

JAI MAHAMAYA KI JAI

*Dattatreya - God's gift to Atri: A divine incarnation of Brahman, Vishnu and Shiva in one body, in ancient times. Dattatreya was a great guru and is the author of many sacred scriptures. His teachings are incorporated in the Shrimad Bhagavatam.

28 JULY 1983

At morning darshan. When asked for this month's 'Sandesh' (message), Shri Babaji responded:

Beginning with today, the 'Parthiv Puja' will be performed. This month [the lunar month of Savan, beginning with Guru Purnima] is a beautiful month, dharmic and full of charm. It is the month of abundance of green. Mahaprabhuji blesses you on this day. Let it be a happy day!

All of you should be happy and peaceful. Mahaprabhuji blesses you with happiness and peace.

The main order of Mahaprabhuji is that you must be punctual in all your duties, always. Those who disobey this order cannot stay. If you cannot be punctual, you have no right to be here. Anyone making this grave mistake cannot stay.

You have come here for spiritual growth. Try to make spiritual progress. Spend your time here doing bhajans, meditation, kirtan and service.

The peaceful vibration of Haidakhan must be preserved. Do not disturb the peaceful vibrations of the ashram by wrong actions. Mahaprabhuji is very strict about this. Those who disturb the peace of the ashram must leave.

Those who come to Haidakhan must cooperate in maintaining the harmony of the ashram. They must participate in the aarati and in all the activities.

One form of cooperation you can offer is to help with your financial contributions. There is much work to be done, many plans to be fulfilled. This work Mahaprabhuji does is not for personal gain. It is a universal service. All of you must cooperate and help the ashram in every way you can.

JAI MAHAMAYA KI JAI

30 JULY 1983

Today you are sitting under the vault of the starry sky. The atmosphere is pleasant and peaceful. You are at the beautiful foothills of the Himalayas, green with the foliage of trees and creepers. The boughs of the trees, covered with many coloured blossoms, are swaying in the breeze. During this time the waters of the Gautama Ganga are fast flowing and strong. We are now in the month of Savan; the significance of this month is mentioned in the sacred scriptures: the air is soft, cool and fragrant.

In this month people should fast and do penance. You should eat only once a day. Spend the maximum amount of time in meditation. The best meditation is to do your duty. To obey orders is real yoga.

When there is an auspicious constellation of the stars in a man's life, then only can he come to a sacred place and meet saintly people. Only in the company of such people can he experience spiritual vibrations and practice the recitation of God's names.

When a man's bad karmas are coming to an end, then he is naturally drawn to a sacred place and the company of good people. On the contrary, when the sins of a man reach a climax, then he is drawn to places of low vibrations and to bad company. His karma does not allow him to remain in a sacred place. This is why every man must walk the path of truth.

Now Daia Shah, the Persian Emperor Darius, is climbing up the stairs, coughing. (Vishnu Datt Shastri came up the stairs from Swamiji's room just then). He comes and sits down in a corner and listens attentively. He, too, is blessed, sitting under the starry vault of the sky. He is sitting in such a dark spot that he cannot see where his own hands are. What may he be thinking? He has reformed Indian culture - Emperor Darius is a great creator and can change what is created at any time. From time to time, a great guide of men who shows the path of truth to others comes into the world. Tulsidas, for example, was such a man and there have been many men who have followed in his footsteps. Shastriji is such a man. He is a true son of Saraswati, the goddess of wisdom. It was She who sent him.

And in another corner Pir-Ali (Har Govind) is sitting at the feet of Lord Hanuman with his harmonium. Over him, too, spreads the starry vault of the sky. The waves of the Gautama Ganga are roaring; her waves are flowing to a poetic rhythm.

Thousands of people owe their lives to her sacred waters. Bathing in them redeems all from all ailments. This is what Pir-Ali is saying. I don't know what he is brooding on. He is very busy these days with construction work in the ashram. Now there is even sweet and cool spring water from the mountains down to the dhuni. The minds of those who drink it will be cooled. Even the coolness of water-coolers does not compare to it. The existence of this water pipe is due to the efficiency of the fakirs/yogis.

The day will come when the area around the dhuni will become "Fakirabad - Yogi City". In the future, this place will see great progress. You are eye witnesses to the fact that people from all over the world come here without being called. All those who want liberation will certainly come here. This is Emperor Darius' opinion and Pir-Ali is thinking the same.

2 AUGUST 1983

The door and windows of the dhuni building, which houses the new holy seat (asana), have been left open. This means that the sanctuary is open to all, whoever they are, from whichever place they come. It is of vital importance to everyone who comes here and wants to be benefitted spiritually to have darshan of the dhuni. This dhuni is not new, although it has recently been newly housed. It is a most ancient dhuni.

Mahaprabhuji did not only make this dhuni with his own hands, he himself supervised and directed every detail of the work. Shri Mahaprabhuji closed His speech by saying: Without dhuni, no meditation; without guru, no knowledge.

Shastriji Speaks

Every particle of this place - Haidakhan Vishwamahadham - has the power to enlighten us. In many religions, the fire is sacred and is the witness of spiritual practice. It is considered divine. In ancient India, the rishis guarded their sacred fire most carefully and kept it clean, as it was believed to be the residence of divinity. Sitting by the dhuni purifies one's vibrations. This you can find out for yourself. Whenever you have any kind of trouble, go to the dhuni and let it give you solace and uplift your spirit.

The fire-pit was first outside, on the terrace; then it was shifted and given a structure around it. This structure was a mud hut, covered with straw. Now it is an enlarged, cemented, brick building. It is a unique dhuni in that it has eight sides for the four directions and four sub-divisions of space. Each of these sides has a divine guard (digpal, bhairava) standing permanently by it with trishul raised. Whatever spiritual practice you do there will bear much fruit. Both the tree growing nearby and the mountain stream flowing by its side seem to have been waiting to protect the place and to give it water.

The day will come when this dhuni will be world famous, for great miracles will be performed here. People from all over the world will come and prostrate to it. As the Shiva temples are open to all who worship God, so also will this dhuni be open. The Gautama Ganga, flowing by its side, is an example to all devotees - as she flows, continuously murmuring the mantra OM NAMAHA SHIVAYA through her waves, so your devotion should flow in one single stream, with the mantra OM NAMAHA SHIVAYA coming forth from it.

BHOLE BABA KI JAI! JAI MAHAMAYA KI JAI

3 AUGUST 1983

For the sake of Lord Rama, all of you are sitting here under the sacred pepal tree. This is a most sacred and auspicious tree. Divine beings are living under it and you are all blessed to be sitting under this great, sacred tree. Many years of penance has been done under it (by Shri Mahaprabhuji) since ancient times. On this earth, you should consider yourselves to be most fortunate. Even the gods of heaven long to be in the shade of this tree. In this world and on all the three worlds it is the most sacred tree that exists. According to the world's Sanatana Dharma, the last rites of a man are always performed under a pepal tree. It is considered a living, conscious being. You should daily do bhajans and kirtan here. It has great significance to be singing the praises of the Lord under this tree.

I want to thank you all who are doing efficient work here. I thank you all the more because you are giving new life to Karma Yoga. The credit for giving new life to this form of Yoga goes to you. It was about to die out in this world. In the Kali Yuga, the tamas-guna (quality of ignornace and inertia) is three-fourths prevalent, with one fourth of rajas and almost no sattva (goodness and steadiness of mind). The machine is eating up human labour.

The machine is even beginning to eat up human beings. Great professionals, as for example doctors, have been rendered inactive by the machines. And the time will come when doctors will even forget their knowledge altogether and all work will be taken over by machines. Therefore, you should all be practicing karma yoga to attain your life's goal. Karma yoga is maha yoga. It can make a man and it can destroy him. The priciple of karma is very great.

Pir-shah's (Hargovind Baba's) Asana (at the dhuni in the Company garden) is about to be completed very soon. There will be kirtan and bhajan performances there. The dhuni will become a great sacred place of the world, where one can attain liberation. The sacred Ganga is flowing nearby and a beautiful spring comes from the mountains right by its side. Those present here should go daily to have darshan of the dhuni and do pranam to it. You can go twice daily to attend the arati there. All of you are very blessed to be living in the most sacred place in the world. You are giving dedicated service to this place with your body, mind and soul. You should know that you have security here - even at the time of pralaya (dissolution) this place will be safe. This is the boon given to it by Mahaprabhuji - it cannot be destroyed in pralaya.

A new world is being created here. The new creation is beginning here. What you see here are already the beginnings of the new world. Here in Haidakhan the old world has been destroyed. I am teaching you this: THE NEW WORLD BEGINS FROM HERE!
I want you to be happy and in peace.

JAI MAHAMAYA KI JAI

6 AUGUST 1983

I think the great revolution is very near. Be prepared for it, leaving behind the fear of death and the hope of life. I think it is necessary now that there is a great revolution because without such a revolution there can be no peace. In all epochs it has been like that - only after bloodshed peace was obtained. At the battle of Kurukshetra, for example, there was great bloodshed.

Like ants out of their holes, people will be seen running out of their houses. You might be wondering in your minds - 'How can Babaji make revolution when he has nothing?' When the time comes, everything will be ready. Hitler was not born with an organised army or weapons ready. Krishna and the Pandavas had nothing in the forest. When Rama fought, he was in exile and had nothing either; but at the right time everything was prepared.

Be ready, everyone of you! Wherever you are, spread this message and tell people to be alert and ready for the great revolution coming now.

The messenger of revolution has come!

10 AUGUST 1983

The dhuni down below has living consciousness. In the name of Lord Rama (Rama Ki Jai Nain)*, the Divine light is always present in the dhuni. For the sake of Lord Rama (Ram Ji Ki Tein) everyone should attend Aarati there and do meditation. In the name of Lord Rama, during the night of 16th August there will be all night vigil and kirtan and 108 candles will be lit for the opening ceremony. In the name of Lord Rama, on the morning of the 17th there will be a havan ceremony. In the name of Lord Rama, everyone should always be sincere and attentive to do bhajan and satsang for the attainment of spiritual knowledge and do other spiritual practices at the dhuni.

The dhuni is one of the wonders of the world.

You may see many types of dhunis in the world, such as parsi dhunis, but nowhere else will you find an eight sided dhuni. The eight sides symbolize the eight arms of Jagadamba, the Universal Mother. As long as there is creation, the dhuni will be there with living consciousness. A boon has been given to this dhuni - that whosoever comes to have its darshan, whosoever meditates and does puja there, will be relieved of all ailments, whether physical, mental or spiritual. For the sake of Lord Rama, anyone suffering from whatever disease, if he takes vibhuti (sacred ashes) from the dhuni and sits regularly for meditation and concentration, will be relieved from all his chronic diseases.

In the name of Lord Rama, Rishi-Gautama came first to this place where the dhuni is now. This is why the river bears his name. Vasishta (the guru of Lord Rama - one of the seven rishis from the beginning of creation - and writer of many sacred scriptures) also came here. The Kailash you see before you is the main Kailash. Lord Rama also came here. Now, after thousands of years of creation, this place is in its most degenerated state. There was a time, when there were no hills, no earth here. But, in the name of Lord Rama, now there are both earth and hills. In the name of Lord Rama, even the sea was there. When Lord Rama came with Rishi Vishwamitra to visit Rishi Gautama's ashram, He drank from the spring by the dhuni now called 'Ram Dhara'. For the sake of Lord Rama, goddess Durga with eight arms also came here to bless Rama. This is the place of eight-armed Durga - this is why the dhuni has eight sides.

In the name of Lord Rama, here is sakshat Hari - Lord Vishnu in the name and form (here Babaji pointer to Shastriji). In the name of Lord Rama, he has written the epic of the Mahabharata three times. In the name of Lord Rama, it was he who was both Vashishta (Rama's Guru) and Vyas (writer of all the puranas at the time of Lord Krishna); he has also recomposed Valmiki's Ramayana three times. In the name of Lord Rama, he has been writer of many epics at many different times (epochs). For the sake of Lord Rama, even Hanuman did not know his own greatness. In the name of Lord Rama, this is maya, the world illusion, the cause of creation. In the name of Lord Rama, it was he (Shastriji) who was Vashishta. In the name of Lord Rama, we are now in the twenty-eight Manvantara (one Manvantara has four yugas) of this kalpa (there are many thousands of manvantaras in one kalpa). As many as there were Manus (one of each Manvantara), there were Vyasas (writer of great epics and poetry).

You must not think that the creation was always like what you see now. There have been many total transformations. What once was here has been transported to a far away place. In the name of Lord Rama, seas have changed places and also mountains. In the name of Lord Rama, Shastriji has been a world teacher and poet at all times. He (Shastriji) attained self- realization through Kakbhushundi (a sage in the shape of a crow, living permanently on a hill top of Himalayas - a devotee of Lord Rama, who forever resides in the Ramayana). He is the original poet-saint of all times. For the sake of Lord Rama, Rama Krishna Shastri (the Shastri from Ludhiana) has also been with him at all times - it was he who was Vishvamitra.

In the name of Lord Rama, even Hanuman did not know his own powers and greatness.

16 AUGUST 1983

(Morning, at the Moksha Dham Dhuni)

Today is a very auspicious day. Today is a very happy day, a day of rejoicing. You are all assembled at the foothills of the Himalayas where the sacred river Gautama Ganga flows. On its banks is this beautiful garden. You are standing here by this beautiful natural spot of overhanging rock covered with abundant green. The splendor of this place is indescribable, as is the spend our of the sanctuary on Mount Kailash. This rock looks so beautiful with the green of foliage and creepers - you can even see the tail end of Hanuman in it (at this point Babaji pointed out some russet colored moss on the rock to Har Govind Baba).

Those of you here today are the most fortunate people in this world! Where you are standing is a most unique spot of spiritual sadhana. Even (the snake with a thousand heads and mouths, upholding the earth) is unable to speak of the greatness and sanctity of this place. Lord Brahma cannot describe its greatness and sanctity either; nor Lord Vishnu with the assemblage of all the Gods and Goddesses.

In the name of Lord Rama, this place has been created solely for the benefit of humanity. It is an outstanding phenomenon, a miracle and a wonder of this world. The sun, moon and all the galaxies of stars are forever ready to serve it. I hope that in future this phenomenon of Divine creation will bear great fruit. In the name of Lord Rama, here a yearly celebration will be held on 16th August, commemorating it as a place of divine manifestation. Here is the birthplace of all yogis and the deity of yogis, as the source of their inspiration, and their goal, resides here. Mahadeva had once told Lord Rama this fact - that this site is the remover of all ills and the giver of all heavenly joys.

In the name of Lord Rama, the sages/munis of this Age have shown great self-

sacrifice in order to build this place. In the name of Lord Rama, just as Pramodavan was the beautiful garden of Lord Rama in Ayodhya, so this is the beautiful garden of Lord Shiva. Its name is "Nadan Van." This divine manifestation, this garden, is not of an ordinary type. It has come into being through the sweat and blood of all devotees. That is why it is so beautifully.

Today is a very happy day. It is a day of great peace and welfare for mankind. Today is an auspicious day. It is "Mangalvar" ("Mangal," auspicious - Tuesday). I have told you that I will bring heaven down to earth and today you all are eyewitnesses to this fact. In the name of Lord Rama, I have told Hargovind Baba many times that I shall make Switzerland and Sweden here. In the name of Lord Rama, now you can see the verdure all around. That the place is what you can see today is due to those who have done penance here. In the name of Lord Rama, what is here today is the outcome of your hard labor and sadhana, of your winning the challenge. Nature posed to you - you have conquered Nature and have created this beautiful garden.

In the name of Lord Rama, Mahaprabhuji has given a boon to this place that whosoever drinks the holy water of "Ram-Dhara" and whoever comes to have Darshan of the dhuni, takes vibhuti (sacred ash) and performs any spiritual practice here, will have the guarantee of being liberated. This has become a written code. This is what Mahaprabhuji tells you. That is why it is called "Moksh Dham" - liberation sanctuary. It is a manifestation of Lord Rama and a center of pilgrimage. It is the entrance door to the Lord. Lakshmana (Rama's younger brother) has been here and so has Sheshnag. In the name of Lord Rama, now I teach this to you - all of you make progress obeying orders and following spiritual discipline.

JAI MAHAMAYA KI JAI!

This is the dhuni of the Mother Goddess. It is Her actual form. The octagonal shape reflects Her eight arms. Here auspicious chanting to the accompaniment of musical instruments takes place as though heavenly musicians (Gandharvas) had descended.

Today is a very auspicious constellation of stars. Today is Bhaumashami - the eighth day of the Lunar month, coinciding with a Tuesday; the last time this occurred was a hundred years ago. During the time of the Pandavas, the princely heroes of the Mahabharata during the time of Lord Krishna, they were waiting for somvati-mavasya, the dark moon day coinciding with Monday. But it did not occur and the brothers were liberated only after much suffering, climbing to the Himalayas, where they died.

Today is a great constellation of stars. In the "Durga Sapt Shati" (seven hundred verses in praise of the Goddess Durga), it is written that on Bhaumashami all one's desires will be fulfilled.

Now, let the auspicious instruments sound again. (Babaji was inviting the bagpiper and drummer who were present to play.)

JAI MAHAMAYA KI JAI!

17 AUGUST 1983

Babaji speaks, Shastriji repeats; morning Darshan, after the Yagna (fire ceremony) celebrating the completion of the Parthiv Puja.

The Parthiv Puja, which has been celebrated here [for the past 21 days], has now been completed. It was due to your devotion and effort that this sacred ceremony

could be accomplished. On this holy occasion, Mahaprabhuji blesses you with His whole being.

In the name of Lord Rama, you are all sitting at the foothills of the Himalayas. By merely sitting here, you are reaping the results of hundreds of lifetimes of penance; by having the Darshan of the dhuni, by applying vibuthi, you are receiving blessings automatically.

JAI MAHAMAYA KI JAI!

17 AUGUST 1983

Evening

From tomorrow morning, Anushtan Puja for the Haidakhandeshwari Devi (the repetition of 1008 times of the "Haidakhandeshwari Sapt Shati," 700 verses in praise of the Haidakhandeshwari Mataji, written by Vishnudatt Shastriji) will take place in the Dhuni. Everyone should participate morning and evening. Just as you go to the temples, everyone should go to the dhuni to meditate and do japa there.

Still, the main importance must be given to Karma Yoga. Without Karma Yoga it is not possible to progress in life - not only to achieve material progress; Karma Yoga is essential for spiritual perfection, as well. I consider an inactive man a dead man. Only through Karma Yoga can you advance in your life; your heart becomes purified, your thinking will be good. Karma Yoga is also beneficial for your health; you will sleep well and have good appetite. A man with good appetite and sound sleep is always a healthy man and with good health he can achieve anything in life.

I have told you before that there are many kinds of Yoga, but Karma Yoga is of supreme importance. Karma Yoga must come first, then others types of Yoga can be added. In the name of Lord Rama, advance and progress through Karma Yoga.

Since the time of Lord Rama and Lord Krishna many scriptures have come into being. They all describe the significance of Karma Yoga and teach its greatness. Christ was a Karma Yogi and the prophet Mohammed followed the path of Karma Yoga. All the Great Ones who have come advanced through Karma Yoga. "Phuro - be inspired!" All of you! In the name of Lord Rama, Karma Yoga teaches you to lead a true life. Only Karma Yoga is able to transform the world. Inaction is the cause of pain and all troubles.

In the name of Lord Rama, Stalin, Mussolini, Hitler, all brought revolution by Karma. Whatever they achieved, they did through Karma - through one-pointed action. The world trembled by the impact of their action; they changed the world. In the name of Lord Rama, Karma Yoga gives immediate results.

Has any great publicity been made in all these years in the media about what is happening here? Yet, by the power of Karma, the whole world, the whole of creation, comes rushing here, like being blown in by a great storm. In the name of Lord Rama, I have told you many times that karma Yoga is supreme and, through it, I will bring the Revolution to the world. I have also told you many times that Karma Yoga is the highest thing. And I have told you many times "PHURO - be inspired!" This Revolution will be so fierce that it will melt the hearts of men. This Revolution will annihilate the trees and leaves in the world, as the result of nuclear destruction. In the name of Lord Rama, I have taught you this lesson of Karma Yoga many times. Through every means we will try to progress through Karma. All will be done.

Concentrate energy, conserve it. Don't waste anything, use it only when needed.

Awake! Arise!

Go to the wise and gain knowledge!

Realize the Self!

Be of firm determination - fully concentrated - achieve your goal!

In the name of Lord Rama, everything is present in this world, but the luckless ones - those without Karma - get nothing.

What I am telling you are all "phuro-mantras" - mantras to be inspired by! In the name of Lord Rama, inspiring words are eternal; the physical body will go, it is perishable. For the sake of Lord Rama, there are people who are "nine less than a hundred" and there are those who are "nine more than a hundred" (an Indian proverb which means that there are all sorts of people in the world). The same goes for people's ages; there are people of all ages. For the sake of Lord Rama, today I will close here.

20 AUGUST 1983

Evening

It is very necessary for us to be strong. If we are economically strong, we can even bring here the power that was the Union Jack's (the English flag that conquered India). We will be able to wave the flag of Hairakhan Vishwa Mahadham throughout the world, as once the Union Jack flew. By their knowledge, yogis will be able to defy all weapons and bombs. "PHURO! Be inspired!"

We must go ahead and progress. Don't lag behind. In whatever condition or position you find yourself, always go forward. Go ahead! Go ahead! Advance with courage! Don't think that we will remain always in darkness and obscurity; like a frog from a deep well, come out and walk ahead!

Nature and the elements are now in our favor. Whenever you will face a challenge, you will win it. Now the sounds of victory can already be heard. The kingdom that will come now will be a religious kingdom. There will be high morals.

At every crossroads, bells will be hung, and if anyone is in trouble he may go and ring them and he will receive justice. I will root out all fear from the world. I will give the boon of fearlessness to all. I will stop the use of all weapons. The disarmament campaign will become greatly strengthened. World leaders are now only talking about this but I will show you disarmament in practice. "PHURO! Be inspired!" In the name of the Lord - Advance!

21 AUGUST 1983

In the name of Lord Rama, PHURO! Be inspired! You all have to go forward. You can only progress through Karma - action. You all have to perform "Sat-Karmas - good, merciful, charitable actions." "Akarma" (inaction) is the worst thing in this world. If you want to live a true life, you have to be active and hardworking. You can become an emperor of this world by hard work. Victory is yours by hard work. All you monkeys and bears! Lord Rama conquered Lanka with the help of hardworking monkeys. You monkeys! Only wagging your tails won't be enough! You will have to do something practical, something useful. Babaji says you must work hard and put things into practice. Teach these things to others, too. First, be inspired yourselves; then inspire others with this message of Karma.

"Ishvarovacha" - Lord Ishwara (i.e. God) tells you: "PHURO! Be inspired!" What you just heard were full, potent mantras.

JAI MAHAMAYA KI JAI!

21 AUGUST 1983

PHURO! Be inspired! In the name of the Lord, this is a full mantra; "Thus spake the Lord." And what is it He is saying? He says:

"The Word is eternal; the material body is perishable."

For the sake of the Lord, I have been talking to you hourly. Be inspired! The problem is one which affects the whole universe. Now the problem of the universe stands facing Me. It is not the problem of one caste or creed, but all living beings of this creation. It is the problem of the 8.4 million species of sentient beings. In the name of Lord Rama, it is not only the problem of all sentient, but also of all insentient beings. The task now before Me is to make the goat and the lion drink from the same water source.

The concept of violence should be understood like this: those who are nonviolent should have no part in violence. For the sake of Lord Rama, I want to establish peace in the world. PHURO! These inspiring words will bring peace to the world. PHURO in itself is a complete mantra.

"Ishvarovacha" "Thus spake the Lord"

JAI MAHAMAYA KI JAI!

23 AUGUST 1983

(Shri Babaji gave an interview to an American journalist)

"This is the time of Karma Yoga. It is the method for realization in this Age. Now I want Karma Yoga.

"A great Revolution shall come to the world. Destruction is a most necessary aspect of creation. At all times, peace was established only after revolution. For many Yugas, the earth has been crying out for blood. The whole earth has to be bathed in blood at least once. This desire of the earth will be fulfilled. The Revolution will come quickly, in seconds, and spread everywhere.

"Courage is necessary. I want to root out idleness and create a world of brave, intelligent beings."

When asked whether it was necessary for everyone who was open to Him and His message to come to Haidakhan, Shri Babaji replied equally, "No; but," he said, "world leaders will have to come here. It is compulsory. When Krishna went into battle, all the leaders of the time came, too, to join Him on the battlefield of Kurukshetra.

"My message will reach into the depth of the sea and into the heights of the sky. All modern weapons, atom bombs and arms, are ineffective against Mahaprabhuji's message and power. The Message that came from a cave in the Himalayas has now come out into the world at large.

"No power in the world can stop the Revolution coming now."

When asked whether He is satisfied with the way His message is being spread in the West, particularly in the USA, Shri Babaji replied, "I am beyond satisfaction and dissatisfaction. What I want is Karma Yoga!"

26 AUGUST 1983

The Sanatana Dharma is the universal Law/Religion - eternal, without beginning, without end. No one knows when it came into being - no one knows how long it will exist.

Hourly, I am speaking to you.

The Sanatana Dharma is the king of all religions. At the beginning of Creation it was the only religion and at the end of Creation it will be the only religion. Santana Dharma is like an ocean; other Dharmas are like rivers - eventually they all merge into the Sanatana Dharma. They will lose their separate existence. This is a "Phuro Mantra" - "Pinda Kacha Shabda Sacha." The body is perishable, the Word is eternal.

JAI MAHAMAYA KI JAI!

31 AUGUST 1983

Today's festival (Lord Krishna's birthday) will be celebrated in a great, inspired way. Mahaprabhuji says, I want to congratulate you all on this sacred occasion. For the sake of Lord Rama, may you all be happy today. (Babaji then congratulated everyone on behalf of Shri Mahamuniraji, who was also present for the occasion.)

On this auspicious day, one of the greatest revolutionaries of all times was born. He called together 18,000 battalions of horsemen from all parts of India. For the sake of righteousness, a fierce battle was fought at Kurukshetra, with great bloodshed. Today we commemorate the birthday of this revolutionary. Let it be an inspiration to all of us.

Krishna was also the one who gave to the world the message of the "Bhagavad Gita," which still today inspires millions of people. On this day He incarnated to lighten the burden of bad karmas of men. The earth was laboring under its burden of bad karmas of men. (Shri Babaji then praised Jaimalji for his great services as a Karma Yogi, saying that he will be an example to be followed by many generations to come.)

JAI MAHAMAYA KI JAI!

31 AUGUST 1983

Babaji speaks, Shastriji repeats; after the Yagna (fire ceremony)

For the sake of Lord Rama, the auspicious Yagna ceremony has been completed today. This religious ceremony has been performed for the welfare of the whole world. Since Mahaprabhuji's appearance until now whatever has been undertaken here has been done for the well being of man. For the sake of Man's salvation the mantra "PHURO!" has been newly created. the readings of the "Haidakhandi Sapt Shati" were done solely for the purpose of serving the welfare of the universe.

One day, the religious ceremonies performed here will attract such crowds that the queues will reach as far as Bareilly, Rampur, and Bhowali. People will rush to come here; even the very rich.

The fact is "PHURO!" Everything in this world is "PHURO" transient. It has no reality. True reality is to proceed on the path of truth, to keep the company of saintly people, and to render service to men. The fact is "PHURO!"; this world is transient.

JAI MAHAMAYA KI JAI!

31 AUGUST 1983

At the Dhuni

Today you are all present here by this natural cave of overhanging rock of Mount Kailash (i.e., on the terrace outside the dhuni building). You are all blessed to be present in this great pilgrim center, at the Court of the actual Kailash Mahadham. Here, only those can live and are living who are very fortunate in this world. How can unlucky people live here? Those who have impurity in them, not even their shadow can come near this place, because this is a sacred, divine center. Here only heavenly beings can reside. For the sake of Lord Rama, continue to sing bhajans, to meditate, to pray.

All of you can see for yourselves how nature has formed this cave of overhanging rock in such a beautiful way. It is covered with the abundant green of leaves and creepers. This is a great universal pilgrim center. Now it is the auspicious morning time. It is 9:30 a.m. How beautifully the bagpipes are sounding! How colorful the garden is round about, where Lord Shiva's attendants are standing - like Majoor-das, in name and form a genuine Ghana. Har Govind is here, like Kartikeya (Shiva's eldest son) and Shastriji is standing here like Lord Brahma, the Creator. You are all Rishis of ancient times, residents of this divine sacred center. You all don't know yourselves. You don't know your own greatness - like Hanuman who did not know His own greatness; He had to be reminded of it.

Wealth, kith and kin, and good fortune, sinners, even prostitutes can have; but the company of great saints and the knowledge of the Lord's name are difficult things to obtain. Only great men have these. This is what Tulsidas has said.

Congratulations to you all on this holy, auspicious day! Can you see how nature has spread a beautiful veil of clouds over the sun? It is neither too hot, nor does it rain. Even nature works in favor of today's auspicious event.

For many years now, you have been witnessing how nature is obedient to Mahaprabhuji. Even if the Sun is told to stop, it will obey. Today, you can see this fact for yourselves. Sitting here at Hairakhan, Mahaprabhuji has control over

every particle of the Creation by the power of His mere wish, by His every thought. You may travel throughout the whole world, but the peace of mind which you acquire here you cannot find anywhere else. Mahaprabhuji has control over the elements, the spiritual world - to say nothing of the world of men. He is the Creator, Sustainer and Destroyer of the world. Not a single blade of grass can grow but that He wills it. He has incarnated in a human body for the welfare of mankind. His sole desire is to make it possible for the whole world to be liberated. He shall do His utmost to achieve liberation of the world.

You have come here from all parts of the world. Can you create such natural beauty as you see around you in these hills? Always, all heavenly beings - the Gods and Goddesses - are present here. They come and go. They bathe in the Gautama Ganga. Many divinities reside here permanently, not wishing to leave this place.

Be happy, all of you! May long life and prosperity be yours always!

JAI MAHAMAYA KI JAI!

(Then Babaji invited the bagpiper to play and some of the devotees to dance.)

In the Court of Mahaprabhuji, the orchestra of musicians is playing and the heavenly maidens are dancing. When there is music, song and dance, this is an ideal combination of three divine elements.

JAI MAHAMAYA KI JAI!

31 AUGUST 1983

Evening, before a playlet depicting incidents from Lord Krishna's life)

Today is the very auspicious festival of "Janmashtami" - the birthday of Lord Krishna. I have only one request to make of you all - the inhabitants of this area. Just as you have come today to attend this festival, I wish to have the pleasure of your company for other festivals, too.

You must know that by living together in a united way, anything may be achieved in this world. People in this area must become united to progress. There is great power in union. If there is unity and love among you, then only can you lead a peaceful and happy life.

We must work unitedly. We must all work together to complete our task. In this way, all work becomes easy. Through division of opinions, great kingdoms and many city states were ruined in the past; but by living in unity, ruined kingdoms have received new life. On this auspicious day, everybody should take a vow to work together in this life.

Try to develop your villages. There is a Sanskrit proverb which says that in the Kali Yuga there is power only through organized groups. We must be of firm determination to progress. Then only success is certain. Modern man has even traveled in space; he has been to the moon and intends to visit other planets; but people in this area are where they were - they have made no progress. Now here we should make efforts to progress, as well. As in these modern times, science and technology have advanced, so we, too, should strive to advance in every way.

The first thing to do is to root out inaction. As long as you do not become great human Yogis, you can achieve nothing. Today you should all take a vow to root out idleness. Through hard work, it is possible to achieve anything in this world. You

can even change creation itself. Have faith in Karma Yoga. Get peace and happiness through Karma Yoga. Idleness is the root of all misery in this world.

You must understand that future generations have to make greater progress than we have made. Make efforts so you yourselves become shining lights in future. There is one path to peace and happiness - Karma Yoga. If we are prepared to work, we can overcome pain and poverty. If there is unity among us, we can even bring down Governments.

Train your children in Karma Yoga, that they may become people of good and strong character.

Shri Babaji and Shastriji comment on Detachment

One evening in August, a devotee went to Babaji and asked Him three questions concerning "detachment": What is the definition of detachment? What is it for, or to what does it lead? And, when you don't have it, how do you "practice" it?

Babaji told the devotee to ask tomorrow, so he went back to his seat.

A while later, Shastriji came out of Swamiji's room and went to touch Shri Babaji's feet. When Shastriji stood up by Babaji's side, Babaji called the devotee back. He came forward and touched Babaji's feet and Babaji told him to ask his questions of Shastriji.

The questions were repeated and Shastriji replied that detachment is knowing that the world is illusion. This did not mean much to the devotee, who felt confused and disappointed.

At this point, Shri Babaji leaned forward and entered into the conversation, saying there were many kinds of detachments, "Vairagyas." For instance, the men who invented the atom bomb were detached - they focused all their attention on one problem, forgetting everything else. The main theme, He said, is to focus your attention completely, to concentrate on your goal, whatever it is, forgetting all other things. This is renunciation. It leads to God - realization.

Shri Babaji said further, that being one-pointed is "Vairagyas." He told the devotee that he was "liberated," that he was "most detached." The devotee felt neither "liberated" nor "detached," but he touched Shri Babaji's feet and headed to his seat. Shri Babaji called him back.

Babaji reemphasized that whatever decision you make, whatever goal you set, go after it with great faith and firm determination, focused on it entirely. Babaji said that just by shaving one's head or putting on orange garb, one does not become "detached." One must have firm faith, strong will and complete concentration. The devotee again touched Shri Babaji's feet, thinking the conversation was over.

Shastriji then told him to stand up and Shastriji began to speak again. He said that Shukadeva had asked the same three questions of his father, Vyasa. Vyasa had told Shukadeva to go to King Janaka and ask him these questions. When the questions were put to him, King Janaka instructed Shukadeva to circumambulate the city of Mithila, carrying a full bowl of milk. Shukadeva was to be accompanied by two

guards with bared swords and if he spilled even one drop of milk they were under orders to cut off his head.

Shukadeva was then sent on his walk, holding the very full bowl of milk. Hours later, he came back into the presence of King Janaka, who asked him what he had seen of the city. Shukadeva replied that he had not seen a thing of the city because he had focused entirely on not spilling the milk, the sword of death hanging in his mind. King Janaka then explained that this was how he had to concentrate on his goal - with complete concentration. This was "detachment" from all the things in life.

The devotee thanked Shastriji and again, with gratitude touched Shri Babaji's feet. At this, Shri Babaji turned from another conversation and asked, "What was your third question?" It was "How does one practice detachment when he doesn't have it?" Shastriji answered: "Dire, dire - slowly, slowly" and the devotee laughed.

Shri Babaji leaned forward and pointed at the devotee and clarified: "With total concentration and great faith and determination! Focus on your goal and everything else fades from view. Then you have "detachment."

7 SEPTEMBER 1983

Today is the Jewish New Year and it is being celebrated here. Today will be a holiday. There will be no work for anyone of whatever caste or creed.

The fact is today is of particular significance. The Israelis who have come here had to "cross eight seas." Other people who come here only have to cross seven seas (an Indian saying to indicate great distance). Notwithstanding the fact that in their own country they have so much to do - they have neither time to drink water nor to breathe - still they have come here. As soon as they are born, they are taught to put their hand to the trigger. This (i.e., because they have to fight continuously) is why they have not even the time to drink water.

(Babaji then turned to one of the Israelis present and asked "Who is it you are fighting?" Answer: "A good question! The Arabs - each other." Babaji continued.) Once, in the past, the Jews had a great kingdom. They ruled over their neighbors but with time they were made homeless. Their land, the Israel of today, has been build by them through courage and hard work. Before this, they had no place on earth, not even space to put down their feet; from everywhere in the world they were thrown out. The Israel of today has been build by the valor of the people who live in the country.

I admire their bravery and courage. The courage with which they are fighting the Arabs makes their lives total chaos (literally - "makes them sleep upside down"). I do not want spineless people in this Creation. I want a world of people with such courage as the Israelis have shown.

On this auspicious day, I bless all Jews who are present here, those who are not present, those who live in hiding, those who are alive and those who are dead. I bless them all.

The day will come - and you will be eye witnesses to it soon - when theirs will be a big, strong kingdom, overruling the Arab countries. Their time has come! Everyone must live with courage. The person without courage must die. This creation

is for the brave. People without courage are a burden to the earth. On this New Year's Day, I bless everyone - especially the Jewish people.

Babaji, at evening Darshan

This is Radio Haidakhan with an important announcement; Here is the main news: Beware of the river, now in spate. Wear appropriate clothing to cover yourselves adequately. Everyone should be mindful of cleanliness, so diseases may not spread. I want that there should be neither pain nor suffering here. People who come here have been through much suffering, so when they suffer here, as well, this is not right. I want diseases and trouble to stay far away from here. If we are afflicted by pain and trouble, what can we achieve?

Here we have the benefit of spiritual healing (jhara treatment); a doctor is available; and there is the sound of Har Govind's trumpet. By its sound, bad vibrations and germs are destroyed. The sound of the bells and conch (shell horn) purify the atmosphere and awaken consciousness. Through the performance here of havan, peace and prosperity are enhanced in the world.

The fact is, the Rishis of the past devised all these things in order to purify the environment. PHURO! Be inspired! As soon as a man of pure heart hears these sounds, consciousness awakens in him. By these sounds all evil influences are kept away. Evil forces are weakened by them.

Now the season is changing and we therefore need more cleanliness. Summer is taking a step towards winter. The change of climate engenders chemical changes in the body and sicknesses increase. Therefore, take care of your body. As long as your body is in good health, you can serve Prabhuji. When you are sick, how can you serve Prabhuji? It is very important to have good health. When your body is fit, you can do anything - bhajans, japa, yoga. PHURO! In order to do Karma, it is vital to keep your body healthy. So follow these teachings about cleanliness and health and teach others, also.

PHURO! This is an all encompassing mantra.

Pinda Kacha, Shabda Sacha. The body is perishable; the word is eternal.

19 SEPTEMBER 1983

Shri Babaji was addressing a group of twenty Westerners who had arrived the night before in a pouring rain. You have come here, making a supreme effort, crossing seas and mountains like Hanuman. The fact is, you made a total effort. Phuro! You have achieved a great task! Your devotion is very deep, there can be no doubt about it. Just as Hanuman showed his profound devotion to Lord Rama, so you, too, have proved your devotion to the Lord.

(Shastriji then said: "Shri Babaji has just whispered a very beautiful Vedic mantra into my ears - 'Aneka Janma Sansiddhaha, Tatoyanti Paramganim'. 'Only he who for many lifetimes practices severe sadhana can attain to the highest abode of God (i.e., liberation)'" Shastriji said that Shri Babaji had given this mantra particularly to the newly arrived devotees.)

Only he can come here in whose life a turning point has come, when the spiritual

energy is rising. Only he can come here whose sins have been destroyed. Lord Rama says that only he can come here who has done great penance in his previous lives. Now there is great turmoil in the world. There is total insecurity with every step. To come here at such a time as this has great significance. Now at every moment man has to face death. No one knows what the next moment will bring. Every moment is full of uncertainty. This is the situation for everyone now.

This is why I am telling you that you are all fortunate to be arriving here during times like this.

JAI MAHAMAYA KI JAI!

19 SEPTEMBER 1983

Evening

For the sake of Lord Rama, the group that came here yesterday worked wholeheartedly today. Work is Mahayoga, Supreme Yoga. To go astray from the path of Karma is to create trouble for ourselves. Action is the source of all joy. Go on working. Go ahead, making progress. Work until your last breath.

The world is transitory. You will find stability only on the path of Karma Yoga. Only action can take a man to God and give him liberation. The law of Karma is so deep that no words are great enough to describe it. The day Karma stops on this earth will be the day of its dissolution (pralaya).

Brave ones, all of you, continue to work! Through Karma alone will you be able to change the world. It is the only way.

Today the world is playing with fire. We have to be ready to face fire, water and great storms and not be shaken. We have to go beyond the hope of life and the fear of death. Whatever happens, we must go ahead. Then only can we benefit the world. We have to bring the path of Karma into the light. Now the world is in deep darkness. The Revolution spreading in this world can be controlled by Karma alone. (Babaji then whispered two mantras to Shastriji who repeated them: "Yadatma Dhrishchayaha: He who has control over himself, who is of determined mind, will succeed in life." "Utishchata Jagrata Prapta Varan Nibhoda Yata: Arise! Awake! Go and seek the wise and learn from them.")

You have come here from the four corners of the world. Today you should take a vow to work hard always and to spread the message of Karma wherever you go.

JAI MAHAMAYA KI JAI!

23 SEPTEMBER 1983

Shri Babaji commented on the marriage in the Ashram that day of two black Americans. The couple standing before you are Kalbhairav with his two Shaktis. (Another black American lady was standing with them). His wife is Kali Maie and the other lady - his auntie - is Bhadrakali. This marriage has great significance. The rain clouds have been collecting since yesterday to shower their blessings on the couple. The sacred river Gautama Ganga has taken on her fierce, fast-flowing aspect. Both Varuna, the God of rain, and Vayu, the God of wind, as well as many other Gods, have come here to attend the marriage ceremony.

But now we focus not only on the matter of this marriage, but of the whole world. The world now is in a state of turmoil. It is suffering from three kinds of pain -

physical, mental, spiritual - and there is only one way of being cured from these. We have to root out inhumanity and replace it with humanity. I have told you before that I do not want differences of caste, creed, color or race. When there is only one Humanity, how can there be different creeds and castes? This is quite unreal. I think it was like this: some shrewd people invented all the differences in order to divide people, to be able to rule over them. So they created castes, their aim being to divide and rule. Differences were created for selfish motives. There are people in this world who, when they see someone else's house is burning, are happy. There are people who want to live in comfort at the expense of the labor of others. There is only one God, who created all men in His image. This is why we have to reestablish humanity.

What I want to instill in man is courage. I want to have a creation of courageous people. Only courageous people can come here. Only courageous people can survive such critical times. I have spoken to you many times about the extent of the calamities to come. They will be so terrible that people without courage will die instantly from heart failure. We have to have the courage to face floods, fire and storms. We have to go beyond the fear of death and the hope of life.

I want a creation where there is no dependency of any kind. Everyone should be able to stand on his/her own two feet. The problems of all countries can be solved when everyone becomes hard working. As long as there is laziness in the world, people cannot attain happiness. Today's world leaders have created circumstances which make it difficult even to breath. If you are active and hard working, then you can do everything yourselves. Materialism is rising like a great storm and we have to face it.

I have told you before that through Karma Yoga alone can you attain liberation. Any material desire you may have can be fulfilled by Karma Yoga, as well. Karma Yoga is Supreme Yoga. Lord Rama and Lord Krishna taught this, too. Not only did they teach it, they also practiced it and were successful in it.

The great battle fought in the Mahabharata was an example of Karma Yoga. The tyrant kings of that time came and fought on the battlefield, where they died fighting bravely - doing their Karma Yoga, and thus attained liberation. This is why Karma Yoga is Supreme. By Karma Yoga, Lord Rama lessened the earth's burden. Those who are lazy, inactive, are a burden to the earth.

So all of you have to go beyond the fear of death and the hope of life and go on doing Karma Yoga. Karma Yoga is the only type of yoga that gives immediate results. Whatever you do in the morning, you can see the results in the evening, standing before you like a picture. The seeds sown in the morning sprout by the evening. The farmer harvests the results of his Karma Yoga after six months. Everyone does Karma naturally, no one can remain without it. We must perform those actions which will benefit others - and not only other people but the whole of Creation.

It is of no use to give birth to millions of sheep. One hard working human being is enough to save the world. We must all become hard working and teach coming generations as well. All other forms of yoga come second only to Karma Yoga because the whole world is maintained by Karma. So practice Karma Yoga and progress. People in the world nowadays have become very cowardly. That is why we have to be courageous, adventurous.

24 SEPTEMBER 1983

Due to heavy rainfall, roads have been much damaged and communications are difficult. There are no bus services. Postal communications have been interrupted. This breakdown in communications will mean great losses to the country. This is Nature's curse: it is the working out of the law of cause and effect. Because righteousness had decreased, all these calamities come.

The fact is, our radio communication is weak. The sound is very feeble. (Babaji was referring here to His own broadcasting apparatus.) The radio has to be beamed to many places and the transmission is difficult. Radios are not receiving up to their full capacity because today the news has to be broadcast throughout the whole universe. This broadcast is being transmitted to every single being in this Creation - to each one of the 8,400,000 existing species. Due to the fact that the sound waves have to reach every distant corner of the universe, reception is somewhat weak.

Not only is man in danger but every one of the 8,400,000 species as well, and the sound of the radio has to reach every single one of them. This is where the radio's transmission ends for today. Sabka Kalyan Ho! May all beings be liberated!.

JAI MAHAMAYA KI JAI!

11 OCTOBER 1983.

At the Manda Farm, near Vapi, Gujarat

I wish everyone in this country, as well as all in this world, all the best. Nowadays humanism has been completely killed. Human beings have become like animals. I want to bring back humanism into the soul of every person. Because of the lack of human spirit, every individual is in tension and fear. I want to relieve everyone from this state.

Ages ago, sages formed the following mantra:

*Sarve Bhavantu Sukhina Sarve Santu Niraamayaa
Sarve Bhadraani Pashyantu
Maa Kasbchid Dhukhbhag Bhavet.*

*May all be happy
May all be free from disease
May all realize what is good
May none be subject to misery.*

But in all these Ages, under the guise of bringing peace and happiness, only wars took place - like those in the Ramayana and the Mahabharata. These wars only left millions of women and children in grief.

Now I want to bring happiness to every living being by reforming the hearts of all individuals. Only by this process can the dream of the sages who formed the mantra come true. For this purpose, the only path is Karma Yoga. Only Karma Yoga can bring satisfaction and good fruits of action. With this, happiness will automatically come into the hearts of the people. Hence, all of you should work hard and follow the path of Karma Yoga.

19 OCTOBER 1983

You must intensify your courage and enthusiasm. I want all work to be done punctually - on time. Whatever work you do, do it with a sense of duty. I do not need more work to be done but I want work done with concentration, efficiently and expeditiously. Everyone must do his or her work here as his or her own work. I want everybody to be very active and hard working. Activity - hard work - is the only way to infuse new life into your country.

There is a great possibility of war in many countries by December. Also, there are possibilities of civil wars. There will be fights between families and between groups within countries. They will destroy each other this way. That is why I want to emphasize unity.

Your aim in life must be to be always active. If you work hard, then you will be happy. You will get good sleep and a healthy appetite also. In the name of Lord Rama, all your work should be done perfectly. May all of you be happy!.

JAI MAHAMAYA KI JAI!

27 OCTOBER 1983

Shri Babaji spoke through Shastriji, whispering each sentence into Shastriji's ear to welcome the Governor of Uttar Pradesh, the Honorable C.P.N. Singh. Today is a blessed day because His Excellency the Governor of Uttar Pradesh has arrived here. On behalf of all the devotees, from India and abroad, we extend a hearty welcome to him. Shri Mahaprabhuji showers endless blessings and good wishes on him.

This Vishwa Mahadham is not an ordinary place. It is special because Lord Shiva, in His mortal body, is living and moving here. The earth which is touched by the Holy Feet of Shri Mahaprabhuji is holier than even the highest heaven. Revered Shri Mahendra Maharaj himself has written that Hairakhan is a wonderful place - in all ways it is giving pleasure - the beauty of the place entrances the mind. Thousands of people are coming from thousands of miles away and experiencing the cosmic vibrations of this place. One who lives here for some time becomes a real Yogi.

We who are here even forget the date or day or time. The mind concentrates automatically because this is the holy place of Lord Shiva's penance. Gautam Ganga always flows here with a roaring sound and all siddha yogis, demons and the Gods worship in this place. Those who live here for some time automatically get many kinds of yogic powers.

This is true because the places that have been touched by the Holy Feet of the Lord have a divine power in them. If we call this place a heaven on earth, it will not be an exaggeration. Those who have a Darshan of this place have all their wishes fulfilled. Both material and spiritual desires are fulfilled, giving a person the assurance that this life is a complete success.

As far as we can see, doing penance in this world has great significance. In the atmosphere and vibration of Hairakhan there is such divine energy that a person gets the power to control the five elements and the five pranas of the body; so much so that some people come here even three or four times a year from abroad to enjoy this bliss. Today we are all blessed and we all pray to God for the Governor's good health, long life, and success, both spiritual and material. Shri Mahaprabhuji loves you and showers millions and millions of blessings on you. .

JAI MAHAMAYA KI JAI!

The Governor's response to the welcome:

Whatever you heard from Shastriji was all the inspiration of Shri Mahaprabhuji. I do not know what words to use to reciprocate such a greeting.

We must remember that in this place, as a result of the appearance of Shankar Swyambhu (the Self-created Lord Shiva), the essential thing is that there are no differences here. Hindus, Moslems, Germans, Italians, rich and poor - all come to the Holy Feet of Bhagwan.

Your bodies are outside but your minds have merged into His Lotus Feet and achieved purification. The degenerated human race starts its purification automatically from His Lotus Feet to effortlessly spread throughout the world. For that purpose only, this forgotten, neglected land is now getting new life.

The work we are all engaged in here is for the purpose of making Man a true human being. At present, men have become like animals. Oh, Prahu! By Your Grace save mankind!

28 OCTOBER 1983

With people going their own way and conflicting with each other, it seems that a time of great crisis is very near. The world needs change from its roots upwards. Oh, my children! Youth of the world! Be brave and courageous and be prepared to face life as it comes, because as long as there is no fundamental "root" change in the world, there can be no improvement.

Oh, brave youth! (It is right to call everyone "youth" now), go from house to house, in any area, wherever you live, wherever you go, and give them this message: "Awake! Arise! And be exalted! Make your life a success!"

Now the time is very near, there is no time to do anything else, no time to brood. Wherever you live, get organized, unite and awaken the people. Show the Path of Righteousness and Truth to all.

You have to be strong and capable of facing these coming difficult times. Oh, youth! Remove all differences from your minds and unite like one great chain. We have to do good, not bad, for the whole world. You have to gather your courage, leave behind the fear of death to face life with hope and courage. Forget profit and loss - do not be concerned for praise or abuse - march on! You will have to walk through the blazing fire; only then can this world be saved.

29 OCTOBER 1983

Shri Babaji again spoke through Shastriji, whispering each sentence into Shastriji's ear Highest Brahmarshi, Blessed One (speaking of and to the Governor of Uttar Pradesh), we give all good wishes to you during your stay here. As the great learned and respected Bhishma Pitamaha showed to the people in the Dwapara Yuga the correct path to Truth and Righteousness, so His Excellency, the respected Governor, is showing the correct way of life to the people of this Age. We all have this high expectation of him. We have a very high place for him in our hearts. We hope that he will guide us, time and again, like Bhishma Pitamaha.

Truth, Simplicity and Love are like a Triveni (a triveni is the joining place of three rivers). The way to success is to join Karma Yoga to this Triveni. Shri

Mahaprabhuji is encouraging us to follow the path of Karma Yoga which is the only way to fulfill our wishes in this and future lives.

Shri Mahaprabhuji wants the creation of very brave and courageous people in the world. If, with full faith and devotion to God and with a firm determination, people follow the Path of Truth, Simplicity and Love with Karma Yoga, they will reach their goal. When the whole world is burning with the fire of sins and sorrows and the flames are about to swallow the world, this is the only way by which humanity can be saved. Only he who has firm determination will survive this destruction. That is why great Rishis have proclaimed: "Awake! Arise! Go to the wise and learn from them!"

There is no place for fear; people must work fearlessly in the world. Maharshi Markandeya has said that we must be fearless: when a man is fearless, no man can stand against him in battle - either a battle in material life or in spiritual life. He is victorious in all the battles of life.

Now Babaji is suggesting another point - that we must annihilate the feelings of "I-ness" and "my-ness" from our minds. You must march forward like a soldier, dutifully and bravely. The thing which brings man down is "attachment" to his own kith and kin. When you all belong to this whole universe, where is the place for "I" and "mine?" We must unite as one universal family and march forward in unity. By this means only will the world be benefitted. This is not the concern of one individual but that of the whole universe. The only true man is one who practices "humanism." Every man must cultivate the qualities of "humanity" - this is the only way to success in life.

To teach us this way of "humanity" or "humanism," Sadgurudev Shri Babaji has appeared here. "Humanity" will not be elevated by lecturing and talking but we must awaken the spirit of humanism in all of mankind. Everyone must remove the differences between themselves and others and work in the world in unity; otherwise the disorder which is spreading in the world will go on increasing and there will be no cure for it.

There is only one way for mankind to be saved and that is by changing the hearts of all people. Shri Mahaprabhuji will give His full spiritual power to this, but every man and woman will also have to make their best efforts toward this end. As long as there is no change of heart, humanity is in great danger.

JAI MAHAMAYA KI JAI!

29 OCTOBER 1983

The Governor's Response

If you so order, I will also speak a few words.

Mahaprabhuji Hairakhan Bihari, my hundreds and hundreds of salutations and pranams to you.

Swayambhu Hairakhandi has explained an ideal. There is no doubt about His incarnation, which is most significantly for the purpose of entering into the deep consciousness of Man - to awaken man. This could not have been accomplished without this incarnation. This incarnation happens only when the people do not accomplish those righteous works which Absolute Truth requires of them.

Thus it is clear, and you can understand who He is, and why God has come, and what

we have to do. In His teachings, His work and His daily routine of life, we can see that He not only gives us blessings but in His daily practical life He exemplifies what He says. There is no difference between His speech and His action.

An Urdu poem says that as long as there is a veil between you and Him, He is away from you; but as soon as you lift that veil (of ignorance) you see Him only - everywhere.

This saint is the Remover of the Veil. This One who is in human form is a tremendous Power. What is our responsibility? It is that we must obey His teachings which He gives us in very rousing words. We must always do our duties earnestly. How do we fulfill these duties? Only by firm determination. How do we cultivate this firm determination? By repeating daily, like a mantra, "I will control my desires and fulfill my duty." When this thought dominates your mind, then you are blessed by Him and His Shakti. Even those who have no physical contact with Him are graced by His blessings.

Universal peace will be established in the same way as the rays of the sun and the moon shine on all the world. Like that, the aura and the rays of Light which emanate from Shri Mahaprabhuji will reach everywhere and give Light to all. If you have any responsibility in the spreading of His Light, it is to work with faith. Everyone should share this Message with ten more people. If you are able to spread the Message and transform lives, then your life is lived at its best.

A few moments ago, when Baba was talking about humanity, a dog came in and wagged his tail as if to tell us "Don't look at my wagging tail - look into yourself!" Oh, people! We should not live like dogs - like animals. We must be human!

For this purpose only, He had to come - to manifest the Ideal. He has to take a human form to guide and show the Ideal, not by talking, but by living it.

Here we see a wonderful thing which we do not see at any other place - there is no differentiation here of caste, creed, religion, rich or poor. All are treated equally here. And that is a great thing.

JAI MAHAMAYA KI JAI! BHOLE BABA KI JAI!

30 OCTOBER 1983

The Kumaon Commissioner, Shri A.K. Das, spoke on behalf of the State Officers from Nainital who came to Haidakhan with Governor C.P.N. Singh

By the grace of Shri Mahaprabhuji, the Governor came here yesterday and Shri Shastriji told the Governor that he was like Bhishma Pitamaha. It is true that the Governor is like Bhishma Pitamaha because it is through him that all we officers and other staff have got the Darshan of Shri Mahaprabhuji and have been able to stay in this ashram.

We are all very much impressed to see that people from thousands of miles away have sent their offering of thousands of rupees and have themselves come here to sit, without distinction of caste, color and creed, at His Lotus Feet. We have never seen such gatherings anywhere else.

The Message of Shri Babaji about Karma Yoga is so great that it elevates human beings. He has come to awaken humanity which is now sleeping in ignorance. The love and grace which He has showered upon us all is great. We are all forever indebted to Him.

5 NOVEMBER 1983

The Italians have shown great enthusiasm and courage. Everyone must follow their example because this Earth is a field of Karma (work). Everyone must be active, working. The great people who lived in the past thrived by doing Karma Yoga - now, also, people who thrive are those who are working diligently. I have told you before that only through Karma Yoga can you make progress. That is why I tell you that you must always walk on the Path of Karma Yoga and teach others to follow this Path, too.

Until you breathe your last breath, you should not abandon Karma Yoga. Inaction is like death - that is why you must go on working, advancing, and making progress.

NOVEMBER 1983

Mahaprabhuji has control over Kal (Time), the God of Death. Mahaprabhuji can create many worlds and can destroy many Creations at His will. If you are His devotee or disciple, why should there be any fear in you? You should not worry at all. Be fearless!!!

8 NOVEMBER 1983

At a tea party given at the dhuni in the Company Garden On behalf of everyone, 71/2 kilos of congratulations to you!

This kind of organization and celebration is good. You should get together in one place at least once a week. This kind of meeting is "Phuro!" - complete. All people will be awakened by this kind of meeting; your contacts will increase. It is of great significance to have such meetings.

For the sake of Lord Rama, the time of ideal kingdom of Lord Rama (the Ramaj) will come.

This kind of program must be held in every village and city. This will bring about a great reform in society. You will know each other better by meeting like this - the differences among people will be reduced.

For the sake of Lord Rama, we must progress in Karma Yoga.

For the sake of Lord Rama - "Phuro!" This is a complete and inspiring mantra.

For the sake of Lord Rama, we must not hesitate to do any service, any work that comes to us. For the sake of Lord Rama, we must progress - advance!.

JAI MAHAMAYA KI JAI!

10 NOVEMBER 1983

The fact is that your daily routine work from morning till night is the real Kriya Yoga. The union of morning and evening (that is, the work of your whole day) is the real Kriya Yoga.

The union of that work which is started in the morning and finished in the evening is real Kriya Yoga. I don't want to brainwash people; they have already been brain-washed! Those who are doing the brain-washing themselves do not understand the meaning of Kriya and Yoga (union). There is nothing like Kriya Yoga. There is

nothing in this world that is not Kriya Yoga. Perfection in work is the real Kriya Yoga.

Every action in this world, including eating and drinking, is Kriya Yoga. The digestive process in your body is Kriya. The process of uniting any two or more things is Kriya Yoga.

The people of the world are being confused by others. Doing your own duty perfectly, ADVANCE! GO FORWARD! That is Kriya Yoga, that is Karma Yoga - by this means only can you make progress. Perfection in work is Kriya Yoga.

All the scientists now thriving in this world are Kriya Yogis. Concentrated and meditative people are all Kriya Yogis. There is no such separate thing as Kriya Yoga. People have been misled - thousands and millions of people have been ensnared in this trap. Only that is Kriya which brings peace and happiness and all kinds of benefits to people. To do good actions is Kriya Yoga. Worship (Puja) is also Kriya Yoga, worship of any deity is Kriya Yoga.

You must all do service to humanity, THAT is Kriya Yoga. The times now demand this of you in this world. In every way, in every manner possible, do good to others and make them happy - that is Kriya Yoga. To each individual and to every country, provide what they lack.

17 NOVEMBER 1983

The food which we eat must be clean and nutritious, like it was today. (There had been a fine birthday feast that noon.) We should pay special attention to everyone's health. Wherever there are centers, people should try to grow and cook good vegetables and make halvah and distribute them to others! Food should be nutritious so your strength for working will increase and your mind will be strong, too. It is necessary to keep the body in good health in order to do good Karma. If your body is not strong, how will you work? We should eat nutritious food so our bodies become energetic and our brains work better.

I want a Creation of strong and healthy people - there is no place for weak people. I want people in this Creation to be as fast in their actions as the Wind. I want people who work with all their bodily energies. At this time, the world needs such brave, strong people.

If you are weak, how will you work and how will you live? You must generate energy in order to exist. Everyone must always be working hard. You should never cultivate inaction here. There is no use to be a deadweight to the Earth. Whatever wars were fought during the past centuries were only to relieve the world of the dead weight of idleness. You must be hard workers.

If you are engaged in doing good deeds and go on doing good acts, you will have good sleep, good appetite and bad thoughts will not cross your mind. Otherwise, you will always be criticizing others. In inaction, your minds will always be engaged in thinking critically of others. Karma - activity - is the only thing which can drive out all evils.

JAI MAHAMAYA KI JAI!

23 NOVEMBER 1983

The fact is, a great fire of sins and sorrows is burning throughout the world. Everyone living walks and works through this fire. People have become disheartened;

Death is dancing before everyone's eyes; everyone has this experience. Those who are present here, from whatever place they come, live here in unity, as one - and so must you live in your won country.

At present, not only humanity is in danger, but all sentient and insentient beings of the universe are in danger. I have not only to consider human beings but I have to save the entire Creation. How is this possible? (A long pause). It is quite impossible. Only he who has a strong determination to do good acts and who is strongly devoted to God can survive this destruction.

Whoever lives in whatever place or country, there is no necessity of your coming running here. Please do not waste your time like this! The time and energy which you waste in coming and going to and from here should be used by doing sadhana (religious worship and work) in your home place. The coming and going is just a waste of time. Wherever you live, you must work hard to provide whatever your country lacks. Go on repeating God's Name and go on working, doing good deeds.

Only by Karma Yoga can you advance and be successful in your life. This is the only invincible weapon - like Vajra (the divine weapon of Indra, the King of Heaven). If you use this weapon, even during the time of total destruction you will not be moved or shaken. That is why you should never cease action.

You should not do anything which will do harm to others. You should do those good deeds which benefit the majority of the people. That is why all of you should advance by giving first priority to Karma (work). Karma is the only Yoga which brings success to a person. This Yoga is so powerful that even the least practice of it relieves a person from sorrow and sickness. Only that work which benefits the majority of people is truly called "Karma."

You must organize and unite people more and more wherever you live.

JAI MAHAMAYA KI JAI!

17 DECEMBER 1983

Morning Darshan

The thing is, today, the 17th of December, the winter session begins and we are all together in Darbar (a Royal Court Session) and great kings and ministers are here. This meeting has a great significance because it is an international Darbar. Even Reagan has not such power as this, nor does Indira Gandhi have it, nor the Soviet premier, nor the Chinese premier. The power of those ministers is limited to their own countries - they all have shaped their own limitations. The kings and ministers who have assembled here, have unlimited power throughout the world.

Shri Mahaprabhuji has the wish that we all must work for the welfare of the whole universe. Whatever we do, we will to do, must be based on the universal good. I tell you that you must all spend your time and energy working for the good of the entire universe. Only by doing this will you be benefited.

It is not necessary for all of you to come running here again and again. You must all be busy in doing your own work (duty) and by doing that you will be cooperating in the universal work. You must all be prepared to contribute to the universal good. Go and remain in your own place. I do not like people roaming about like dogs. If you go anywhere, go for some purpose. Use that time which you would waste in coming and going to and from here to do good to some human being - to any living being.

Advance! and help others in making progress.

Now a terrible time is coming. I have told you this previously. By this great Revolution even the geography of the world will change.

I request that all of you work hard for the upliftment of humanity. Try to protect the rights of humanity. Step forward to protect humanity!

At the present time, inhumanity has spread everywhere. We have to totally root out inhumanity and we have to establish humanity throughout the world. I told you previously that you may wonder what I will do and how I will manage it when only Amar Singh, with broken teeth, is with Me. What will the broken toothed Amar Singh do? He who only sits in the kitchen all day!

LOOK! When the time of need arises, all the army, navy, and air power, all newly invented weapons of war - atomic and nuclear and hydrogen bombs - will be provided. Like armies of ants, these forces will be lined up here. That is why I say you should not wonder what I can do - I can do everything.

For example, at the time of the great Mahabharata war, all the powers of the world came to help the Pandavas. (In the great struggle between the Pandavas and the Kauravas, the Kauravas were the established, universal power; the Pandavas returned from exile without money or army, but when the dispute rose to the level of battle many Kings put themselves and their armies under the command of the Pandavas.) He who has doubts is ruined.

You must all step together and form a great international organization - bigger than anything organized in the history of the world. I do not want you all to be ruined or destroyed. A great Revolution is going to take place such as has never before occurred in the world. The hearts of the people who read or hear the history of this Revolution will melt. This is an era of great destruction - no other time can be compared to this. The Revolution will last not for minutes but only for some seconds. The countries which have invented these destructive weapons will themselves be destroyed. They should not think they are secure. Only he who has surrendered completely at the feet of Shri Mahaprabhuji (God) is secure.

We must not stand still - we must advance for the sake of our countries, for the upliftment of the human race, for all humanity. We must establish Karma Yoga, we must eliminate idleness from the world. I have told you before, also, that I want active and hardworking people. I do not want to live in a world of inaction - that is why I want to make everyone energetic.

Now Shri Mahaprabhuji requests you to step forth for the benefit of all humanity. Leaving behind dishonesty and craftiness, step forward to cultivate humanitarian qualities and protect humanism and humanity!

17 DECEMBER 1983

Evening Darshan

You must consider work as the real devotion and go on doing Karma Yoga always. Shri Mahaprabhuji says "I am always telling you about working hard. My head has become very hot from the constant repetition of this same thing."

This world is transitory, the Name of God is the true reality. Everything in this world is destructible, transient, unlasting. So you must all repeat God's Name and

sing kirtan and bhajans with devotion and concentration. Without this, how can you attain Enlightenment and make progress?

The kirtan and bhajans which we sing here must be sung with such deep devotion and concentration that the Deity of whom you are singing must be invoked to appear before you.

You must go on working and doing kirtan, too. Many times I have told you about this and I hope I will tell you many times in the future because I want to see everyone lively and energetic. When Time is moving so quickly, why do you reduce your speed? You must work as fast as a machine; your brain must work in mantras like a computer. You should not brood over things; to obey the orders of Shri Mahaprabhuji is your real Yoga. This is the only mantra for you - to obey the orders of Shri Mahaprabhuji.

Leaving behind the fear of death and the hope of life, you must advance. You should not be afraid of fire or water. When the need arises, we will have to jump into the ocean; when the time comes, we must be prepared to jump into the fire. That is why all of you must be as firm and stable as Mount Meru. The thing is that this whole world is transitory - why do you entertain confusion in your minds? You must have only one aim, one goal - to serve every living being in the universe.

JAI MAHAMAYA KI JAI!

21 DECEMBER 1983

Everyone must take a vow on the 25th that we are all one and that we must all live in unity. Everyone must remove differences/distinctions from their hearts. There must be more stress on unity. We must put an end to all kinds of differences of opinion and other differences, too. We must step forward, keeping in mind the problems that the coming great crisis will bring.

Everyone must use his own common sense - he should do his duty without waiting to be told what to do. To do your duty is the greatest worship (Puja), the greatest service (seva), the greatest devotion (jap) and penance (tapas).

All of you must give the greatest significance to Karma Yoga. You all have advanced through Karma Yoga only. You must all advance with a firm determination. To have a firm determination is Yoga; to be stable and firm in your determination is Yoga. You should not be shaken from your determination. To be shaken from your determination is to lose your direction - that is why you must make a firm determination and stick to it. Everyone must show his progress to Shri Mahaprabhuji.

JAI MAHAMAYA KI JAI!

22 DECEMBER 1983

At the Hawankund on the gufaside of the ashram, at a pre-Christmas fire ceremony When most of the seats at the Hawankund had been taken and the ceremony had started, a foreign man came to the Hawankund and looked for a place to sit. Babaji asked:

"Have you washed your hands? Wash your hands and come and sit."

The chanting of the mantras stopped while the devotee washed his hands and sat down. Then Shri Babaji, looking around the Hawankund at all the foreign faces, said:

"I want to tell you the meaning of the Yagya (havan ceremony)." He called out "Roiyo," calling for Om Shanti to come and translate.

"Havan it is that brings rain, which brings grain. The origin of Creation stems from the havan. The havan is the real form of the Gods; whatever we offer to the havan goes directly to the Gods who are being invoked.

"By doing havan, people gain happiness and all the pleasures of life; they all have good thoughts and love for each other. By the smoke from the havan the harmful germs in the atmosphere are destroyed and the good bacteria, useful to life, grow in it. This increases the plenty and prosperity of the world.

"Before starting any work, you should first know the significance of it. You may be wondering why these people are burning the fire and 'wasting' things by throwing them into the fire. It has great significance: Creation originated from this.

"I will take two minutes more of your time. Do you have any objection?" (A chorus of "no's".)

"The original Kailash is this one. (He pointed above, up the hill of the Kumaon Mount Kailash). Mahadeva (Lord Shiva) appeared there and performed the first havan there.

"Now we turn toward the other Kailash, where (the lake) Mansarovar is (in Tibet). Another Yagya was performed at Mansarovar Kailash. "When the original Manu (the first man) was born/created, and when Mahadevaji ordered him to extend the creation, this Manu performed a Yagna at Mansarovar. That is why that place was named Mansarovar, from the root name of Manu.

"By Manu's strong determination and the power of the havan, Creation started to expand. Jai Mahamaya ki jai!

"Did you all understand something?" ("Yes, yes!")

Here Shri Babaji used an Urdu phrase to say: "I want to utter a few more words."

"Did you understand?" ("Yes; no.")

"If you have not understood, I will explain it to you. But if you have understood, what more should I say?"

"Did you understand?" ("No; yes.")

Baba continued, laughing: "If you understood, what more can I say?"
To Om Shanti: "What do they say?"

Om Shanti: "Some say yes; some say no."

Babaji, with eyes twinkling: "Those who understood can explain to those who did not understand. Bhole Baba ki jai!"

A devotee said: "Nobody has understood anything."

Babaji, with laughter: "If you are so stupid that you have not understood, then how can I explain it?!"

And the havan got under way again.

24 DECEMBER 1983

(Evening)

The fact is, today is an auspicious and blissful day. Today you are all assembled in the foothills of the Himalayas and on the banks of the river Gautami Ganga. Today the air is cool, gentle and sweet-smelling. People from all countries throughout the world have come here. Those who have assembled in this holy place on this Day are enjoying the bliss of heaven. Let this Day be happy for all of us who have chosen the Path of Universal Unity.

The fact is, I have told you before, many times, what I want to do in the world. I want a creation of brave, fearless and courageous people. I want people with a strong revolutionary spirit who are willing to fight for the Truth. I want to root out the present spirit of non-violence from the world; this emphasis on non-violence has brought an increase in atrocities and injustice in the world. I do not want a world in which the rights of human beings are crushed/trampled, as the world is today. This practice of non-violence has led people into ignorance instead of leading them to knowledge. Due to this kind of non-violence, Man has been deprived of his rights and he is afraid of his own shadow. I want a creation of powerful people throughout the world.

You will all wonder what Shri Mahaprabhuji will do, how He will do it, what is going to happen, how He will face this calamity single-handed. Up to now, whatever one has achieved, he has achieved by self-effort. Yat atma dhrirh nisachyah. You must have perfect/full control over yourself and a firm determination. You must not be shaken from your determination, even at the time of total dissolution of the world. One who is firm in his determination can change the whole world.

When Lord Ram was in exile, He had no army of millions of men but He did have a firm determination. When one has firm determination, all the powers of Nature assist him, come to help him. When the Pandavas returned from their years in exile, no army waited for them. As in those times, all the powers of Nature will come automatically to help us when the need arises.

It is said, in Sanskrit verse, that if a King is brave and courageous, his subjects will help him with bravery and courage. If we have a firm determination, fire, water, storm . . . nothing can stop us. It will not be necessary to call; when the time comes, all the powers will come to help, like clouds coming piling in. Today, in our society there is no lack of people who are trained in many arts and in the sciences. In the Samaj, there are people of such talents who come from all parts of the world. Here are many people with great knowledge of the arts and sciences. In this society, all are educated and each one who comes in more qualified than those before him.

At the time of the Mahabharata, the great, great kings, leaving behind the fear of death and the hope of life, jumped into the battle. Like that, today people from many countries are ready to face whatever comes. He who has doubts will perish. You are all eyewitnesses. Did I go anywhere to broadcast My Message to any other country? The thing is - "Awake! Arise! Go to the learned people and get knowledge from them." Then you will get all kinds of powers and success in your life. Today I want to congratulate the people from all over the world. Those who are present and those who are not - all deserve congratulations on this Day.

JAI MAHAMAYA KI JAI!

Now there is only half an hour before twelve o'clock. Don't get up and disturb the rhythm/pattern of this holy time. There is a proverb in Hindi which has the hero of a drama telling the heroine "Most of the play is over, little is left and this little is about to finish. Please do not disturb the harmony of the music for this short remaining time."

So please stay seated and go on singing kirtans and bhajans until twelve o'clock. Whatever kirtans, bhajans and prayers you offer today, Christ will hear. Sing kirtan; sing "Alleluia."

25 DECEMBER 1983

Today the International Festival of Christmas is ending. This festival was celebrated successfully, through the cooperation of all people. You have always been cooperating like this at this festival time. This festival is celebrated here regularly through the inspiration of all of you and it will continue like this in the future. That is my Blessing on all of you. Congratulations to you for your concentrated, wholehearted efforts.

I have told you many times before that you must all keep your duty before you always. We must all have one purpose before us - to sacrifice ourselves for the sake of humanity. We must live for humanity and die for humanity. We all must offer our lives for the welfare and security of society. This must be our main aim, our bhajan (meditation, kirtan and service). This is our bhajan, this is our kirtan, this is our repetition of The Name. We should always proceed with this aim in mind. Today mankind has greatly degenerated. People are like puppets dancing for demonic leaders. We have to protect the people and lead them to progress. We must not lose courage.

JAI MAHAMAYA KI JAI!

25 DECEMBER 1983

The Kumaon Commissioner's Speech (Shri A.K. Das)

As you heard just now, this was the celebration of the birth of Christ. All of you know about the resurrection of Christ and His message of Love. Every year we celebrate Christmas here - it is a very auspicious occasion. The teachings of Lord Christ was that we are all led by the Good Shepherd. Christ was crucified but he never died; He was resurrected and He had no word of condemnation or hatred toward those who killed Him. He prayed - "Please forgive them they know not what they do."

Now Shri Babaji is here before you. His teachings are similar to those of Christ. The message of Christ was to love everyone, to have no hatred or jealousy toward anyone. Babaji teaches the same. Everyone must do his own duty - only then can we advance.

I feel particularly honored by this opportunity to say a few words to you. I have a tremendous faith in Baba, particularly because we have His message of humanity here. So many foreign friends have come from all over the world. There is much difference between the ways of life and the religious beliefs but there is something unique here - that is why people come from all over the world and sit here. This great gathering of humanity teaches us that though we come from all over the world, we are all from the same spring of humanity. We should love each other, we should gain experience of each other's views and exchange views of our faiths. On this auspicious day, let us all pray to Lord Christ, to Baba, for blessing and

for all the mental courage to perform our destined jobs honestly, properly and with dedication. Once again, I offer my prayers to Baba and to Lord Christ for all my brothers and sisters seated here.

JAI MAHAMAYA KI JAI!

1 JANUARY 1984

The fact is that all of you have assembled here at the foot of beautiful and pleasant Mount Kailash. You all are sitting in the courtyard of that beautiful cave, the greatness of which has been described in the Vedas. And you are the most fortunate ones in the whole universe - you are all witnessing and enjoying the first new sunrise of the New Year in this very holy and beautiful valley of the Himalayas.

At one time this whole valley was covered by snow and the mountains were covered by snow. I have told you the mystery of this place. My brothers, this is the real, original Kailash. Mahadeva (Lord Shiva) resided here with Mother Parvati for thousands and millions of years. Even before the whole of Creation, this place was here.

I have told you before the story of Mansarovar (Kailash). When Manu (the first man) was created, he wished that the Creation would be expanded. He performed penance and Yagya there. He installed a symbol of Lord Shiva there. This gave rise to the name of Mansarovar for the lake - from his name, Manu. Considering all these facts, you can conclude that this is the original Mount Kailash. This is the only mount where the Gods, Goddesses, Sages and Seers and the Angels (Gandharvas) reside. Now all of you can understand the great significance of this holy place. It is the greatest holy place of the world.

There are many holy places that are limited to a particular religion. There have been and are many temples, churches and religious centers, but this is the only universal pilgrim center. That is what gives this place its great significance. All the Gods and Goddesses - the diving beings - reside in the mountains around here.

Today, as the year 1984 starts, I am happy to give you all congratulations and good wishes. Let this year be happy, auspicious, and blissful for you. May all of you be liberated! May success be yours!

I have already told you before that the difficult times are very near. Awake! Arise! Go to the wise and learn from them. All of you must unite together and face these calamities. Jai Mahamaya Ki Jai!

JAI VISHWA!!! There is an Indian slogan "Jai Hind!" It means "Victory to India!" But I want the welfare of the whole universe so I am starting a new slogan - "JAI VISHWA!" ("Victory/Honor to the Universe!")

8 JANUARY 1984

(Amar Singh Yadav - speaking for and prompted by Shri Babaji)

The time of great difficulty is coming. Only those will be saved whom Shri Babaji wants saved. They will be saved by His Grace - no medicine, no guns, no jhara will work unless Shri Babaji wants the person saved. This is how Babaji will accomplish His Work.

In every place, He will put one of His devotees and fill him with His energy and

through him, making him an instrument of God's Will, He will benefit the whole area. Like this, the whole world will be saved.

Now He is showing you a rehearsal of how He will work. There is Radhe Shyam, there is Kali, Nandi Baba, etc. etc., they are all instruments which Babaji has prepared. He puts His representatives everywhere and through them He works out His plan without Himself going anywhere.

At the time of the battle of the Mahabharata, between the families of two brothers, the Kauravas and the Pandavas, it appeared to be a fight between two brothers, but it was really a fight between Righteousness and Unrighteousness. AT that time, God took the form of Lord Krishna and saved the world. He became the charioteer of Arjuna. He was seen as one who only handled the chariot of Arjuna but, in reality, He was directing all the fighting and inspiring all the warriors.

Like that, Shri Mahaprabhuji is putting His energies into and through His disciples, sitting in the hearts of His chosen disciples, guiding them for the benefit of the whole world.

Now we can compare these disciples with Arjuna. Actually, Baba is doing everything, making his disciples His instruments for the welfare of the whole world.

BHOLE BABA KI JAI!!!

9 JANUARY 1984

It is my request that the Health Department (of Hairakhan) should look after all the people here, so no one loses his good health. Considering the health of all the people, the Health Minister should take strong measures for their health. Everyone must accept this rule and go to the hospital when they are sick; and the doctors must also go and check and visit people.

You must all advance by taking good care of your health. The fact is, only by taking good care of your health can you gain success. The fact is, if your health is not good, how can you do your service? Taking care of your health is as important as any of the other duties of your life. It is your duty toward your body. If your body does not work, how will you function and advance?

10 JANUARY 1984

The fact is that all of you who have assembled here from foreign countries have done very hard work here. You have shown your devotion and courage toward God. You have increased the beauty of this place.

Shri Mahaprabhuji stresses Karma Yoga and states that this is the highest Yoga. All other Yogas can fructify only after your death, but Karma Yoga brings instant results to you.

I want, and many times I have told you, that it is the best thing to live your life with courage and bravery. You must be always active and hardworking. I have told you this before, also. I will give you liberation only through Karma, so you should not lag behind in your work. Be active and advance!

You must always encourage Karma Yoga. You have to progress through Karma Yoga. Through Karma only can all needs be fulfilled. We cannot make the world happy and peaceful without Karma Yoga (work). For the peace and happiness of the world, we have to practice Karma Yoga. Through Karma Yoga - working hard - you can bring

peace, happiness, joy and contentment to the world. Idleness makes men slip backwards, lag behind. Karma is the highest and greatest thing.

JAI MAHAMAYA KI JAI!

11 JANUARY 1984

At evening Darshan, Shri Babaji invited Shammi Kapoor, Mahatmaji, to say something. Mahatmaji replied, "I have not come here to talk; I have come here to listen and learn." Shri Babaji looked around and then back at Mahatmaji and said, "All these people are yogis." So Mahatmaji began to speak.

"Just sitting here, I will give one experience of mine.

"The young, sweet boy who is now sitting in Baba's lap (Marco Reichel) was, two years ago, sitting in Baba's lap and Baba was always tossing him. I was constantly watching and saw Baba turning him upside down sometimes and then right side up, spinning him around. At that time, a great desire arose in me that I should be a child like him, so Baba can play with me.

The next day I was just sitting here when Baba came in. Baba beckoned to me with His hand - like this. I answered, 'Ji, Prahhu' and went up to Him and was about to prostrate myself before Him when He lifted me up and tossed me like a child and put me in His lap!

"That's the truth! (Shammi Kapoor is about 6'2" tall and weighs about 130 kilos.)

"If you have a sincere wish for anything, Baba fulfills it.

"The lap is the same but now the child in it is Isu. The lap will be the same but the child will always be changing. It is all the Grace of Shri Mahaprabhuji."

20 JANUARY 1984

The fact is, all of you have done very hard work here. You have made this place very happy and beautiful and it is also prosperous. Due to that, thousands of people are coming here and getting peace of mind. This is all the result of your Karma Yoga. In the near future, all of you will establish ashrams and centers throughout the world and do Karma Yoga there and create the same vibrations wherever you go.

All of you must learn spiritual healing - jhara-phunka - and make spiritual healing centers. By that means, many people in the world will get peace and happiness.

31 JANUARY 1984

You must all have a firm determination. Even if total destruction comes or any great calamity comes, you must not be shaken from your determination. If there is a great flood, if fire breaks out - in any calamity - you must be so brave and determined that you would jump into fire or water. You must inspire others also to become brave and courageous. Only he who has courage is a true living being. One who has no courage is like a dead man, even though he lives. We have tightened our belts and taken a firm determination to do good to the world and uplift humanity. You must stick to this resolve with your full energy.

Calamities will fall not just on one country but on the whole universe; the whole universe is in danger. The terrible times which are approaching will engulf the whole world; the whole universe will be enveloped in this destruction. We must

consider not only ourselves but also the whole of the universe. We can achieve anything in this world when we are hard working and industrious.

Because you must consider the whole universe, we should say "Jai Vishwa!" instead of "Jai Hind!" "Jai Hind" means "Victory to India" - "Jai Vishwa!" means "Victory to the whole Universe!"

1 FEBRUARY 1984

Morning

Shri Mahaprabhuji says Karma Yoga is the highest yoga. You are witnessing the effect of Karma Yoga in everything you see here. It is the effect of your Karma Yoga that I am sitting here. (Shri Babaji was sitting on the edge of a new garden recently built and planted.) This whole Company Bagh - Fakirabad - was built by your hands.

Karma Yoga is the only thing in this world which can change your fortune/fate. And it can change the geography of the world - where there is water you can make land; where there is earth, you can make water. In this Yuga (era), there is a great necessity for Karma. You should never lag behind in your Karma Yoga - the times demand it.

It is not I, but Time, which is talking through My mouth. Time is running on with great speed. All countries have raised their heads, with mouths open, like cobras, waiting for the opportunity to swallow each other. At this critical time, courage and bravery are needed. With your Karma Yoga, you must repeat the Name of God with your mouth.

I do not like dishonesty; I want everyone to be honest and dutiful. Everyone must do his duty correctly. You must know what you should do and be busy doing it. By Karma one will not fall but will always rise higher. That is why you should never be afraid of doing hard work. We must do everything according to the need of the times. No work is low or bad in this world if it is done in the right spirit. By Karma only can you advance. That is why a man should never hesitate to do any work. Whether it is high or low, big or small, no work is bad. Work is work.

Courage is life. One who has no courage is like a dead body. So My aim is to benefit the whole world - not just one individual or one country. JAI VISHWA!

All of you must be always ready and make efforts for universal good. You must help each other for that. You must always be prepared to do good acts and, wherever you live, you must organize weekly or monthly satsang (meetings for the Truth). Have large gatherings to discuss measures to be taken for the good of the whole world. Invite learned men and scientists; consult with them and take their advice. you must find ways and means to do universal good.

JAI MAHAMAYA KI JAI! JAI VISHWA!

4 FEBRUARY 1984

Morning

All of you have done a lot of hard work here and are continuing to do it. The whole world will be benefitted by the hard work and Karma Yoga you have done in Hairakhan. People from all over the world who visit Hairakhan and see the hard work

you have done are extremely pleased by your performance. They feel elevated and when they return they cite this as an example.

(At this point, Aarati was performed to Shri Babaji. After the Aarati, He continued). All the hard work you have done here is an education for the forthcoming creation. This is the greatest teaching for the generations to come. The battle you have waged with your hard work and devotion is a battle with Nature, and you all are changing Nature itself. This is a great teaching for the whole world because Karma Yoga is capable of achieving everything. The work you have done proves this. br> You can see for yourselves the achievements which you have made in this place through your hard work and Karma. By Karma (action) you can even change the geography and geology of the world; where there is water, you can create land, and vice versa. Karma is a very high form of yoga.

You have all witnessed the effect of Karma Yoga here and can see the changes from day to day. What is there today is not there on the next day. Everything is destruction; it only proves that Karma (activity) can change everything. You can even change your fate or destiny by sheer hard work.

All the great sages, saints, yogis and sannyasis that the world has seen and all the Messengers of God have achieved all that they did through hard work and Karma Yoga. Through Karma Yoga they changed Nature itself. Therefore, you must never be disappointed in life and you must remember that what even God cannot achieve, you can achieve through hard work. Karma is a thing which can even change the course laid down by God.

When Karma Yoga is such a high thing, why don't you all adopt this as your practice? Karma Yoga can obtain for you all the happiness and the pleasures that you need. Anyone who is an active and hard working Karma Yogi has no problems in this world. To give up Karma and become lazy is the greatest problem and unhappiness - and also danger - that you can face in your life. That is why everybody must firmly tread the Path of Karma Yoga and stick to it no matter what happens.

You should seek advancement only through Karma Yoga. Everyone can attain courage and Shakti (power/energy) through Karma Yoga. Impossibilities can be turned into possibilities by sheer hard work. Therefore, all of us must progress and advance via the Path of Karma Yoga.

This is not only a matter regarding this place but wherever you go, or wherever you work, you must maintain this very standard because this is not only for Shri Mahaprabhuji that you do this hard work, it is for your own elevation and liberation. No matter what the Karma is, we must not turn away from it, because we have to meet the challenge of the coming times. If and when the time arises and we have to go to war, even then we must not turn back.

Therefore, all of you must adopt Karma as your dedicated Path and go forth in the world... JAI RAM, SITA RAM, JAI JAI RAM!

5 FEBRUARY 1984

Today is the 5th of February and the auspicious occasion of Basant Panchami*. May all of you be blissful and happy.

You must attain peace, prosperity and happiness in your lives.

JAI MAHAMAYA KI JAI!

* A celebration of spring, a new growing season, at which time Puja is done with, and people wearing in their or over the ear, ten day old sprouts of specially planted grains. Om Namaha Shivaya.

14 FEBRUARY 1984

Babaji left his body on 14 February 1984.

He had come to give a message to the world, and having done this, He left His physical body.

His last message was: *"I am always with you."*

The following recollections of Babaji's statements on various subjects have been compiled by a devotee who spent nearly ten years in Shri Babaji's physical presence.

The Mantra:

The Lord's Name is like diving nectar (amrita); repeat it all the time.

OM NAMAHA SHIVAYA:

This is the Mahamantra, the great original mantra, given by the Lord to humanity. Everyone should repeat it. It can be given to everyone and everything can be achieved through it. The power of Om Namaha Shivaya is infinite. This mantra is more powerful than the atomic bomb.

Meditation:

In this dark age (Kali Yuga) the mind of man is weak and restless from the first day of birth. Because of this, no one is able to do the real practice of meditation anymore, but everyone can pray and repeat and chant the name of the Lord, using whichever divine name his religion teaches.

Yoga:

Everything can be yoga. Yoga literally means "union," as does the word religion. Work, action, worship are all forms of yoga. Meditation is the highest path of yoga, but very few are able to achieve true meditation.

Religion:

Every religion is equally good and leads to the same divine goal. It is wrong to speak of a Hindu Dharma (religion). The Dharma of India is the Sanatana Dharma (eternal, original religion).

Karma:

Karma is an inevitable law of cause and effect, by which all living beings reap the fruits of their actions and thoughts. Jesus stated the law of karma in the words "As ye sow, so shall ye reap." The law of karma is above all things. Karma starts when movement starts in the mind. To stop karma we must bring the mind to that state of silence and voidness beyond which God can be known. Only a yogi knows how to do this. Otherwise, as long as a man breathes, he is creating karma. No one can remain without action, even for a minute. Therefore, learn how to dedicate your every action to the Lord.

Knowledge:

Nothing can be achieved without knowledge and yet everything can be achieved just through a pure heart.

Worship:

The Lord is beyond name and form. No one is able to pretend to have reached this stage of realization. Worship remains an essential part of preparation and purification of the heart.

Discipline:

Nothing can be achieved without discipline. You should have the strong discipline of a soldier. Be the soldier of God, and act with courage and discipline. In this ashram and in the ashrams abroad, discipline is the primary thing. Life abroad should be led the same as it is in Hairakhan. To work and worship together is essential in life. One should follow a vegetarian diet, take no intoxicants, and have sex only between husband and wife.

Food:

Control and discipline in eating is essential. Food always influences the state of the mind. It is important to eat light, vegetarian food. Fasting is a great practice.

Marriage and Sex:

In this Kali Yuga almost no one has the strength to remain celibate. Although this is the best condition, marriage is better than undisciplined relations. Union between a man and woman with love can bring peace and help in spiritual practice.

Drugs:

Drugs are harmful and useless for any spiritual practice. Even tea and coffee are harmful.

Devotion:

Devotion (Bhakti) and faith are the basis of everything. Through devotion alone, one can achieve everything. Complete faith, surrender and obedience are required. "You can only know Me through love - Divine Love, love for God, without any selfish purpose."

About Himself:

I am Bhole Baba (the Simple Father). I am nobody and nothing. I am only like a mirror in which you can see yourself. I am like fire. Don't keep too far away or you will not get the warmth. But don't get too near or you may burn yourself. Learn the right distance. My name is Maha Prabhuji (the Great Lord).

Can I Ask A Question?:

Every answer is in your own mind. Once here, questions are no longer needed. I will speak to you inside.

Mind:

Everything comes from the mind and is created by mind. Control of the mind is the main practice.

Speaking:

Speak as little as possible. Don't waste your time. Be concentrated all of the time on the Lord's Name.

The Physical Body:

One day your body will be burnt and reduced to ash; don't be attached to it. However, without a body no knowledge is possible, so use your body for God realization.

Thoughts:

Learn not to make projects and fantasies about your future. Forget your past and old habits. Learn how to concentrate your mind on the Divine only, here and now.

Hairakhan Vishwa Mahadham:

At the present time, this is the holiest religious place in the world, holier even than Benares. The water of this river (the Gautam Ganga) purifies you from all sins.

His Teachings:

When the time comes, I will reveal them. Now is the time for action. When I come to this world, of a million people who approach Me, only one is able to become my disciple.

Guru:

I am no one's Guru, but I am the Guru of gurus.

The Path:

The path of God realization is a most difficult one. Few are those who will walk it. It is as difficult as walking on the edge of a razor. The grace of the Guru is everything. No knowledge is possible without the Guru.

The Life Purpose:

Ask yourself what is your purpose in life and ask yourself why you have come here from so far. Be aware of the purpose of your coming here and strive for spiritual achievements.

Love:

Live here with love for each other, like members of one family. Discard jealousy and envy. Because you are all one, live here in peace. If you are in peace, I am in peace; if you have problems, I have problems.

Service:

To serve other people is the main duty of every human being. I Myself have come only to serve, to perform My duty. To be really able to serve is the greatest thing.

Chanting:

Chant the name of the Lord always. By chanting the mantra, its vibrations spread all round you.

You will then meditate for yourself and others. By holy chants alone, I will lead and win any war in this world. Whatever happens, all the devotees of God will be saved by Divine Will.

About The Coming Wars:

Terrible calamities and wars are approaching in the world. After a lot of destruction, a new age of goodness will come. I myself have come to prepare the world for a new kingdom.

On Non-Violence:

The theory of non-violence has spoiled the mind and courage of people today. I am

for fighting; fighting against the evil and crime everywhere, which should no longer be tolerated.

Patience:

Nothing is possible without patience on the spiritual path. See yourself as the child, who gradually learns to write in school.

Liberation:

I have come to give Liberation to all of you. I have come to give the Light.

Renunciation:

In this age it is not possible to renounce the world. The only practice of renunciation now is to offer all work and actions to the Lord. If you want God, be ready to devote everything to God.

Where Is God:

God is everywhere, in everything; in the water in the sky - He is inside you.

What Is Truth?:

Truth is One.

Giving And Receiving:

I have come to give, only to give. Are you ready to receive? I give everything, but few ask for the Real Thing I have come to give.

OM NAMAHA SHIVAYA

BHOLE BABA KI JAI

JAI MAHAMAYA KI JAI!
